Recommendation 2.4			
1. Board ensures and adopts an effective succession planning program for directors, key officers and management.	COMPLIANT	The BSP in its Manual of Regulations of Banks requires banks such as BPI to have succession planning programs in place, particularly directors as well as critical officers and senior management of the Bank.	
2. Board adopts a policy on the retirement for directors and key officers.	COMPLIANT	<p><b>Board Succession</b>            The Nomination Committee and the Corporate Governance Committee work within a general board succession plan framework to ensure that:</p> <ol style="list-style-type: none"> <li>1) appropriate governance processes are in place and ongoing, for identifying, assessing and monitoring future needs of the Board;</li> <li>2) there is continuity and transfer of knowledge in the Board so that it may effectively fulfill its role and responsibilities to BPI, as that may evolve over time, and;</li> <li>3) the Board is taking a prudent and structured approach to managing succession risk.</li> </ol> <p><b>Senior Management Succession</b>            The Board, through its PerCom, manages the talent pipeline and assembles the required personnel capable of navigating such changes. In consultation with the President and CEO, the PerCom reviews the Bank's talent development process for proper management. Senior Management provides a report to this Committee on the results of its talent and performance review process for key management positions and other high-potential individuals. Aside from ensuring that there is a sufficient pool of qualified internal candidates to fill senior leadership positions, this review process identifies opportunities,</p>	

		<p>performance gaps, and proactive measures in the Bank's executive succession planning.</p> <p><b>Retirement Policy</b>  The best interests of BPI are served by retention of directors that make meaningful contributions to the Board and the organization, regardless of age. It is the Bank's strong view that with age often comes unmatched wisdom and experience, expert business judgment, invaluable industry and community relations and authority, and deeply ingrained appreciation of the principles of corporate governance. The Bank believes that imposing uniform and fixed limits on director tenure is counter-productive as it may force the arbitrary retirement of valuable directors.</p> <p>Nevertheless, the Bank has set a retirement age for Directors at 80 years old.</p> <p>The requisite succession planning for key officers as well as employees is done in accordance with the Bank's policies and implementing guidelines of its retirement plan for all employees, the Bank's Amended By-Laws, Labor Code, and the Corporation Code of the Philippines.</p> <p>Currently, the retirement age for employees of the Bank is set at 60 years of age.</p> <p><u>Reference documents/links:</u></p> <ul style="list-style-type: none"> <li>• <b>2022 Integrated Annual Report</b>  Board Succession, Senior Management Succession, (pp. 121);  Retirement Policy, (page 121)</li> </ul>

**Recommendation 2.7**

<p>1. Board has overall responsibility in ensuring that there is a group-wide policy and system governing related party transactions (RPTs) and other unusual or infrequently occurring transactions.</p>	<p>COMPLIANT</p>	<p>The BSP requires the establishment of an overarching, group-wide Related Party Transactions Policy (RPT) and system, which BPI has complied with. BPI established a Board-level Related Party Transactions Committee (RPTCom) to assist the Board in assessing material agreements of any kind with a related party and endorse material RPTs to the final approvers. Currently composed of independent and non-executive directors, this Committee meets regularly</p>	
<p>2. RPT policy includes appropriate review and approval of material RPTs, which guarantee fairness and transparency of the transactions.</p>	<p>COMPLIANT</p>	<p>to vet credit and non-credit related party transactions of significant amounts that meet the materiality threshold per transaction type as established per Bank's policy on RPTs, and ensures that the terms granted to the RPTs are similar to terms granted to non-related parties under similar circumstances. Our Chief Audit Executive and Chief Compliance Officer also sit as non-voting members of the RPTCom. Internal Audit, under the CAE, performs post-reviews to ensure proper implementation of material related party transactions endorsed by the RPTCom.</p>	
<p>3. RPT policy encompasses all entities within the group, taking into account their size, structure, risk profile and complexity of operations.</p>	<p>COMPLIANT</p>	<p>Our Related Party Transactions Policy imposes stringent guidelines and measures to maintain arm's length integrity in all of the Bank's related party business transactions, operations, and activities. BPI vigilantly guards against improper pricing policies, questionable manners of settlement, and ambiguous or disputable terms of transactions in any related party transactions.</p>	

		<p><u>In compliance with SEC Memorandum Circular 10 on Rules of Material RPTs for publicly listed companies, the Bank also incorporated additional guidelines on material threshold for SEC reporting purposes, defined as related party transaction/s, either individually, or in aggregate over a twelve (12)-month period with the same related party, amounting to ten percent (10%) or higher of the company's total assets based on its latest audited financial statement. If the reporting PLC is a parent company (e.g., BPI), the total assets shall pertain to its total consolidated assets.</u></p> <p>In 2019, the RPTC Secretariat, with assistance from the Corporate Governance Department, complied with SEC Memorandum Circular 10 on Rules of Material RPTs for publicly listed companies by submitting to the SEC a Material RPT Policy and posting the same on the company website within five (5) days from the submission to the Commission. The Bank's Material RPT Policy was approved by the RPTC on October 18, 2019, and by the Executive Committee on October 23, 2019. The Policy was also filed with the SEC and posted on PSE Edge on October 28, 2019. It was also posted on the BPI website on October 31, 2019.</p> <p><u>Reference documents/links:</u></p> <ul style="list-style-type: none"> <li>• <b>2022 Integrated Annual Report</b> Related Party Transactions, Related Parties, Related Party Transactions Committee (pp. 126-127) <a href="https://www.bpi.com.ph/about/investor-relations/integrated-reports">https://www.bpi.com.ph/about/investor-relations/integrated-reports</a></li> <li>• <b>Corporate Governance Manual</b></li> </ul>

<b>Supplement to Recommendations 2.7</b>			
<p>1. Board clearly defines the threshold for disclosure and approval of RPTs and categorizes such transactions according to those that are considered <i>de minimis</i> or transactions that need not be reported or announced, those that need to be disclosed, and those that need prior shareholder approval. The aggregate amount of RPTs within any twelve (12) month period should be considered for purposes of applying the thresholds for disclosure and approval.</p>	<p>COMPLIANT</p>	<p>RPTs that are classified as Material Transaction shall be approved by the Board and submitted for confirmation by majority vote of the stockholders in the annual stockholders' meeting.  RPTs involving amounts below the materiality threshold must be approved by the proper authority and submitted for confirmation by the appropriate Board. RPTs involving Directors, Officers, Shareholders, and Related Interests (DOSRI), subsidiaries, and affiliates, must at all times be submitted to the appropriate Board for approval. For subsidiaries and affiliates, only credit transactions, regardless of amount, are required to have prior Board approval; their non-credit transactions do not necessarily require Board approval unless meeting the materiality threshold.</p>

**Recommendation 2.10**

<p>1. Board oversees that an appropriate internal control system is in place.</p>	<p>COMPLIANT</p>	<p>The Board of Directors is responsible for fostering the Bank's internal control culture that promotes integrity, morality and competence throughout the organization. The Board has the primary responsibility to review and approve systems and processes proposed by Management to identify, monitor, and control major operating risks impacting the business. Two board-level committees form part of this internal control system: the Risk Management Committee and the Audit Committee.</p>	
<p>2. The internal control system includes a mechanism for monitoring and managing potential conflict of interest of the Management, members and shareholders.</p>	<p>COMPLIANT</p>	<p>The Bank also has an Employee Code of Business Ethics and Conduct. Through the Code, the Bank desires to: (1) build a culture of integrity, accountability, and ethical behavior that encourages employees to abide by the Code and strive to protect the Bank's reputation; (2) establish a system for detection and reporting of known or suspected ethical wrongdoing or violations of the Code, and; (3) emphasize BPI's commitment to compliance with regulatory guidelines, rules, and laws. The Code is applicable to and mandatory for all employees at all levels of the BPI group. Annually, all BPI employees are required to read, understand, comply and affirm in writing their adherence with the Code of Business Conduct and Ethics. (Recommendations 7.1 and 7.2., SEC CG Code for PLCs)</p> <p>The Board also adopted a Director's Code which sets forth policies in several basic areas that commonly require directors to exercise sound and informed judgment, recognize and deal with ethical issues,</p>	

		<p>report possible unethical conduct, and foster a culture of openness, fair dealing, diligence, and accountability. These basic areas include: (1) leadership and stewardship; (2) diligence, care, and skill; (3) upholding the law; (4) conflict of interest; (5) competition and fair dealing; (6) confidentiality; and (7) corporate disclosure. The Director's Code also discusses directors' time commitments, training and development, personal investments and insider trading, political activity and involvement, gifts policy, anti-bribery and anti-corruption, related party transactions, competition and fair-dealing, and public communication. These are all part of the key ESG issues for the banking sector, i.e., Resilience, Business Ethics, Responsible Finance, Financial Product Governance and Human Capital.</p> <p><u>Reference documents/links:</u></p> <ul style="list-style-type: none"> <li>• <b>2022 Integrated Annual Report</b> Internal Audit and Control, (pp. 149, 164-166); Employee Code of Business Conduct and Ethics, (page 128-131) Director's Code of Conduct, (page 130) <a href="https://www.bpi.com.ph/about/investor-relations/integrated-reports">https://www.bpi.com.ph/about/investor-relations/integrated-reports</a></li> <li>• <b>Corporate Governance Manual</b> Compliance system and Internal Control, Internal Audit and Control, Sec. <b>Recommendation 2.11</b>			
1. Board oversees that the company has in place a sound enterprise risk management (ERM) framework to effectively identify, monitor, assess and manage key business risks.	COMPLIANT	BPI pursues best practices in enterprise risk management across its businesses and processes. It espouses a comprehensive risk management and capital management framework, which integrates the identification, measurement, monitoring, and controlling of our risk exposures. It works to ensure that it has adequate liquidity and capital at all times in order to mitigate risks, as well as robust business continuity and crisis resiliency plans that are regularly tested. BPI's framework conforms not only with its own rigorous standards, but also with BSP directives promoting an effective internal capital adequacy assessment and other risk management processes.

It includes provisions on board composition, Board Committees, and board governance, subject to the Bank's Articles of Incorporation, Amended By-Laws, and applicable laws. The charter does not limit, enlarge, or change in any way the responsibilities of the Board.	
2. Board Charter serves as a guide to the directors in the performance of their functions.	COMPLIANT		
3. Board Charter is publicly available and posted on the company's website.	COMPLIANT	<p>The Board Charter of the bank is incorporated within the provisions of its Manual on Corporate Governance. <b>Additional Recommendation to Principle 2</b>			
<p>1. Board has a clear insider trading policy.</p>	<p>COMPLIANT</p>	<p>The Bank has an Insider Trading Policy which prohibits its covered persons or directors, employees, and other parties who are considered to have knowledge of material facts that have not been disclosed to the public, including any information that will likely affect the market price of BPI's securities, from buying or selling these securities for their own personal account.</p> <p>Covered persons are strictly prohibited from trading during periods of structured and non-structured disclosure (trading blackout). This prohibition includes passing on material and non-public information relating to BPI or its clients to anybody who may buy or sell securities.</p> <p>A trading blackout prohibits trading once the covered person receives material information before a structured or unstructured disclosure. <b>Optional: Principle 2</b>			
1. Company has a policy on granting loans to directors, either forbidding the practice or ensuring that the transaction is conducted at arm's length basis and at market rates.	COMPLIANT	BPI's Related Party Transactions Policy guards against internal conflicts of interest between the company and/or its group and their directors, officers and significant shareholders and ensures that transactions such as loans and advances, deposit arrangements, trading of government securities and commercial papers, sale of assets, lease of bank premises, investment advisory/management, service arrangements and advances for operating expenses are made in the normal course of banking activities with terms and conditions that are generally comparable to those offered to non-related parties or to similar transactions in the market.	
2. Company discloses the types of decision requiring board of directors' approval.	COMPLIANT	RPTs that are classified as Material Transaction shall be approved by the Board and submitted for confirmation by majority vote of the stockholders in the annual stockholders' meeting. RPTs involving amounts below the Materiality Threshold shall be approved by the appropriate approving authority and submitted for confirmation by the appropriate Board. Provided, RPTs involving DOSRI, subsidiaries and affiliates, shall at all times be submitted to the appropriate Board of Directors for approval.	

**Principle 3:** Board committees should be set up to the extent possible to support the effective performance of the Board's functions, particularly with respect to audit, risk management, related party transactions, and other key corporate governance concerns, such as nomination and remuneration. The composition, functions and responsibilities of all committees established should be contained in a publicly available Committee Charter.

**Recommendation 3.1**

<p>1. Board establishes board committees that focus on specific board functions to aid in the optimal performance of its roles and responsibilities.</p>	<p>COMPLIANT</p>	<p>The Board has established Committees to heighten the efficiency of Board operations and assist in exercising its authority for oversight of internal control, risk management, and performance monitoring of the Bank. The committees provide organized and focused means for the directors to achieve specific goals and address issues, including those related to governance. In particular, the committees enhance the objectivity and independence of the Board's judgment, insulating it from undue influence of management and major shareholders.</p> <p>In 2022, the Bank had eight Board-level committees. The chairmen and members of the different committees were elected by the Board during the Organizational Meeting on April 28, 2022, after the ASM. **Principle 6:** The best measure of the Board's effectiveness is through an assessment process. The Board should regularly carry out evaluations to appraise its performance as a body, and assess whether it possesses the right mix of backgrounds and competencies.

**Recommendation 6.1**

1. Board conducts an annual self-assessment of its performance as a whole.	COMPLIANT	<p>There are four (4) major levels to the evaluation:</p> <p>i. <u>Board-level Assessment of the body as a whole</u></p> <p>The Board of Directors needs to assess its own achievement of goals and working style, i.e., actual operations and work of the Board with respect to the Bank's business model and strategy. Directors will also review board effectiveness with respect to current and future development challenges of the Bank, the continuous evolving expectations of its stakeholders and, if need be, existing communication on corporate governance matters.</p> <p>ii. <u>Committee-level Assessment of respective Board Committees</u></p> <p>All board-level committees are to evaluate annually the performance of the committee as a body and report the results to the Board or to such committee that may be appointed by the Board for review.</p>	
2. The Chairman conducts a self-assessment of his performance.	COMPLIANT		
3. The individual members conduct a self-assessment of their performance.	COMPLIANT

<p>5. Every three years, the assessments are supported by an external facilitator.</p>	<p>COMPLIANT</p>	<p><b>Third-Party External Performance Evaluation.</b> In pursuit of best practices, the Bank engaged in 2020 a third-party external facilitator, Aon Hewitt Singapore Pte. Ltd., to conduct a separate Board Assessment covering the 2019 to 2020 board term.</p> <p>BSP Circular 969 states that the annual self-assessment of the Board may be facilitated by the corporate governance committee or external facilitators. The SEC Code of Corporate Governance for Publicly-Listed Companies, similarly states in Recommendation 6.1, that the conduct of the annual self-assessment of the Board is to be supported by an external facilitator every three years to improve objectivity of the assessment process. **Optional: Recommendation 12.1**

1. Company has a governance process on IT issues including disruption, cyber security, and disaster recovery, to ensure that all key risks are identified, managed and reported to the board.

COMPLIANT

The Bank manages its operational and IT risks by ensuring such risks are thoroughly identified, assessed, monitored, reported, and mitigated. It has defined clear responsibilities related to the performance of the risk management function, as well as the accountabilities, methods, and tools employed to identify and mitigate operational and IT risks in our operating units. It requires operating units to undertake regular self-assessments to identify risks, assess the inherent and residual risks, identify controls, and assess the design and the performance effectiveness of the controls. KRIs are used to monitor risk profiles, trigger early-warning alerts, and instigate mitigating action. Operational loss events data collection and analysis provide meaningful information in effectively managing risks. The risk and control library improves its aggregation and reporting process by providing an aligned taxonomy of risks and controls. BPI's exposure to operational risks is identified, assessed, and monitored as an integral part of the risk assessment processes. It currently uses the Basel III regulatory basic indicator approach to quantify operational risk-weighted assets, by using the historical total annual gross income as the main measure of risk. BPI regularly performs operational risk stress tests, through scenario analysis, to support the internal capital assessment for operational and IT risks, as part of our initiatives to advance risk management methodologies. Through a series of stress scenarios, the Bank is able to identify, analyze, and assess the impact of unexpected and severe operational risk events. This exercise ensures that the impact of high-severity events is captured during risk assessment, especially those not yet reflected in our existing historical loss data.

<b>Recommendation 12.4</b>			
1. Company has a separate risk management function to identify, assess and monitor key risk exposures.	COMPLIANT	<p>BPI pursues best practices in Enterprise Risk Management (ERM) across its businesses and processes. It has an established ERM and capital management framework that enables the Bank to identify, measure, control, and monitor its significant financial and non-financial risk exposures, ensure adequate liquidity, and set aside sufficient amounts</p>	

		<p>of capital to cover and mitigate such risks. The framework reflects the Bank's internal standards as guided by the regulatory directives issued by the BSP in promoting effective risk management governance, implementing robust business continuity and operational resiliency standards that are regularly tested, and performing the internal capital adequacy assessment and other risk management processes (Recommendation 2.11, 12.4 SEC CG Code for PLCs). Risk management in BPI follows a top-down approach, with risk appetite setting and overall risk strategy emanating from the Board. The Board fulfills its risk management function through the Risk Management Committee (RMC). The RMC defines risk appetite statements at functional risk areas and on an enterprise level, reviews risk management structures, metrics, limits, and issues across the BPI Group of Companies (BPI Group), and directs the Bank's risk strategy framework anchored on sound risk management governance, value-enhancing risk methods and processes, and risk-intelligent data and technology. It oversees and manages risks and monitors regulatory and internal capital adequacy vis-à-vis risk exposures. It promotes a strong risk culture and exercises oversight through the Subsidiary Board-level RMCs across the BPI Group. It manages risks through clearly-delineated functions to ensure effective risk management governance and control processes across the Bank using the "three lines of defense" model. This model defines the risk management responsibilities of each unit owning and managing the risk (1st line), overseeing the risk management function (2nd line), or providing independent assurance on the quality and effectiveness of risk management and internal controls (3rd line). BPI's risk culture is anchored on its</p>

<b>Recommendation 15.1</b>			
1. Board establishes policies, programs and procedures that encourage employees to actively participate in the realization of the company's goals and in its governance.	COMPLIANT	As a key ESG issue, Human Capital impacts the Bank's reputational and operational risks. It also has business impacts on employee motivation and the Bank's hiring capability. A major initiative of the Bank under its long-term incentive program, the Executive Stock Purchase Plan (ESPP) was launched in 2013. The ESPP program offers officers the opportunity to purchase BPI shares at a discount to the prevailing market price, and to pay for such purchase over a prescribed period of time. This also promotes ownership culture within the Bank that fosters a sense of belonging among officers and develops their direct interest in the Bank. Management believes that this stronger alignment between the interests of BPI officers and shareholders will benefit all stakeholders. Both the Employees' and Directors' Codes of Conduct are disclosed in the Manual on Corporate Governance and on the company website at <a href="http://www.bpi.com.ph">www.bpi.com.ph</a>.</p> <p>In 2020, the Corporate Governance Department, in collaboration with the Bank's HR Training team, created the new and updated mandatory Code of Business Conduct (COBC) Course which also includes training sections on other CG policies of the Bank such as the Insider Trading Policy, Whistleblower Policy and the Anti-Bribery and Anti-Corruption Policy. The COBC course was also migrated onto Granite, an online portal that can be accessed by employees using their smart phone or tablet devices, to ensure that employees would be able to take the mandatory training course in light of the limited in office training that could be conducted due to the COVID-19 pandemic.</p> <p><u>Reference documents/links:</u></p> <ul style="list-style-type: none"> <li>• <b>2022 Integrated Annual Report</b> Dissemination of the Codes, (pp.128-131) Training on the Codes of Conduct, (pp.128-131) <a href="https://www.bpi.com.ph/about/investor-relations/integrated-reports">https://www.bpi.com.ph/about/investor-relations/integrated-reports</a></li> <li>• <b>Code of Business Conduct and Ethics</b> <a href="https://www.bpi.com.ph/governance/board-and-governance/business-conduct-ethics">https://www.bpi.com.ph/governance/board-and-governance/business-conduct-ethics</a></li> </ul>
