- ii. An independent director should always be in attendance. Unless otherwise provided in the by-laws, however, his absence shall not affect the quorum.

- vi. At the end of each fiscal year, the Corporate Secretary shall execute a Sworn Certification of the directors' record of attendance in Board meetings, submitted through SEC Form 17-C or in a separate filing.

c. Orientation and Continuing Education

The Board's directive is to generate reasonable returns on shareholder capital by, among others, reviewing and approving strategies and objectives, appointing senior executives, confirming organizational structures, approving enterprise-wide policies, monitoring business and financial performance, overseeing risk management frameworks and risk appetite, and fostering regulatory compliance. In this age of increased competitive pressure and heightened regulatory demands, bank directors must be more engaged and skilled than in the past. It is therefore imperative that new directors are fully informed and equipped with information to bring them up to task.

In this respect, new directors are briefed on the Bank's background, Table of Organization, and, in compliance with BSP Cir. No. 758, are furnished with copies of the general/specific duties and responsibilities of the Board. The new directors are also briefed on the relevant polices and rules governing their roles as directors and given an overview of the industry, regulatory environment, business of banking and annual and medium-term strategic plans of the Bank, as needed as well as any current issues affecting the Bank or the industry. New directors are also apprised of the Bank's governance framework, board operations, i.e., schedules, procedures and processes, and the availability of information and support from the Corporate Secretary and Senior Management. Finally, the Bank ensures that new directors also undergo the requisite corporate governance seminar conducted by a duly-recognized institution as mandated by existing regulations.⁸⁰

The continuing Business Education is being provided internally by the various units of the Bank which provide presentations on regulatory initiatives such as FATCA, Basel III, and new BIR regulations. Below are some of the other in-house trainings available for Directors and Senior Management:

- CyberRisk and CyberSecurity
- Data Privacy and Protection
- Anti-Money Laundering Act Seminar
- Money Laundering & Terrorist Financing Prevention Program
- Business Continuity Management
- Conflict of Interest
- Conversations – Performance Appraisal

The Board should ensure attendance to an 8-hour orientation program for first-time directors and 4-hour relevant continuing training for all directors.⁸¹

d. Access to Information

- i. Members of the Board should attend regular and special meetings of the Board in person or via teleconference or videoconference or by any other technological means allowed by law.⁸²
- ii. Board packages⁸³ for board of directors' meetings are to be provided to the members, normally five (5) days in advance, and in case of additional items two (2) days. Additional items may include additional information/research/documents for complex or highly impactful issues which may or may not have been externally-sourced or prepared by an external subject matter expert. In any case, additional items for matters already included in the agenda must meet the prescribed documentation supported by valid reasons and approved by the Corporate Secretary for inclusion.
- iii. The Board shall have separate and independent access to the Corporate Secretary, who also serves as adviser to the directors on their responsibilities and obligations and oversees the adequate flow of information to the Board prior to meetings. This access to the Corporate Secretary shall be unhampered, unlimited and direct, either by phone, email or letter. The Corporate Secretary shall give them all the information and assistance they will need to prepare for the meeting or clarification of any relevant matters.

As also stated in the section of this Manual on Communication and Information, Management shall be primarily responsible for the adequate flow of information to the Board. This information may include the background or explanatory information relating to matters to be brought before the Board, copies of disclosure statements and documents, budgets, forecasts and monthly internal financial statements.

e. External Advice/Other Independence Mechanisms

If so requested by the Chairman or other directors or as may be needed for particular transactions, external specialists or third-party, independent consultants can be called on for advice, briefings or assistance on specialized areas of focus such as related party transactions, mergers and acquisitions, valuation and fairness opinions for acquisitions or disposal of

assets, etc. Management can arrange for the internal auditor, management services company or consultants to present to the Bank.⁸⁴

The Corporate Secretary and/or Management calendars said requested advisory activity/ies for the next meeting.

f. Performance Evaluation⁸⁵

Board, Committee and director evaluation involves board members undertaking a constructive but critical review of their own performance, identifying strengths, weaknesses and implementing plans for further professional development. The provision of feedback on board performance and governance processes is the most crucial element of said evaluation and is the means by which the Board of Directors achieves consensus on targeted improvements. Said self-assessments are to be carried out annually, shall be held in utmost confidentiality and will have non-attributable responses.

The self-assessments focus on individual director performance as well as the collective performance of the Board and its Committees, operating as a whole and are built around the Terms of Reference for the Board and Committee Charters. Key evaluation factors of the assessments include: the functions of the board, board strategy and effectiveness, board structure and committees, board and management relations, succession planning and training and value creation.

The results of these evaluations shall be presented to the Corporate Governance Committee which will then report on all these assessments to the Board. The Corporate Governance Committee may develop recommendations and/or an action plan for the Board, where determined necessary or desirable, to address issues raised as a result of such assessments, and will monitor the progress of the Board in addressing issues identified in the assessment process.

A key objective of the performance evaluation is to also be able to highlight the strengths of the Bank's corporate governance system where such improvement initiatives can be highlighted in targeted communications to strengthen shareholder and stakeholder confidence.⁸⁶

There are four (4) major levels to the evaluation:

i. Board-level Assessment of the body as a whole

The Board of Directors needs to assess its own achievement of goals and working style, i.e., actual operations and work of the Board with respect

⁸⁴ 2016 SEC Code of Corporate Governance for Publicly-Listed Companies, Recommendation 8.6.

⁸⁵ 2016 SEC Code of Corporate Governance for Publicly-Listed Companies, Recommendation 6.1 and 6.2.

⁸⁶ 2016 SEC Code of Corporate Governance for Publicly-Listed Companies, Recommendation 6.2

to the Bank's business model and strategy. Directors will also review board effectiveness with respect to current and future development challenges of the Bank, the continuous evolving expectations of its stakeholders and, if need be, existing communication on corporate governance matters.

ii. Committee-level Assessment of respective Board Committees

All board-level committees are to evaluate annually the performance of the committee as a body and report the results to the Board or to such committee that may be appointed by the Board for review.⁸⁷

iii. Individual Director Self-Assessment

iv. Board assessment of President and CEO⁸⁸

B. DIRECTORS

1. Duties and Responsibilities of Directors⁸⁹

A director of the Bank shall have the following duties and responsibilities:

- a. To remain fit and proper for the position for the duration of his/her term;⁹⁰
- b. Accept the responsibility for creating and enhancing shareholder value and ensuring the long-term success and viability of BPI;
- c. Devote time and attention necessary to properly discharge his duties and responsibilities as Director;
- d. Exercise sound and independent judgment at all times and ensure that personal interest does not bias any Board decision;
- e. To act honestly and in good faith, with loyalty and in the best interest of the institution, its stockholders, regardless of the amount of their stockholdings, and other stakeholders such as its depositors, investors, borrowers, other clients and the general public. A director must always act in good faith, with the care which an ordinarily prudent man would exercise under similar circumstances. While a director should always strive to promote the interest of all stockholders, he should also give due regard to the rights and interests of other stakeholders.

Before deciding on any matter brought before the BOD, every director should thoroughly evaluate the issues, ask questions and seek clarifications when necessary.

- f. Understand and internalize the core values of BPI;

- j. Act with full transparency, fairness, independence and sound judgment; and
- k. Observe confidentiality over all sensitive matters taken up by the Board.

2. Policies on Directorships

- a. Policy on multiple board seats:
 - i. Directors are bound by BPI's Director's Code of Conduct to take into account their individual circumstances and the nature, scale and complexity of the Bank's activities in showing full commitment to the Bank - devoting the time, schedule and attention necessary to its business interests, to properly and effectively perform their duties and responsibilities and to avoid conflicts of interest – and affirm this in writing annually.

A rigorous nomination process to ascertain fitness and propriety of candidate directors and examine their principal commitments is also done every year, prior to the Annual Stockholders Meeting. Board and committee attendance is closely monitored and reported. The Board also conducts an annual performance evaluation of itself, its committees and directors, which includes an affirmative determination of time commitments. Board committee chairmanships and memberships are reviewed and fine-tuned as well at the Board's organizational meeting following BPI's Annual Stockholders Meeting.

Apart from these, a director shall exercise due discretion in accepting and holding directorships outside of BPI. A director should notify the Board before accepting a directorship in another company.⁹¹

The Bank, however, applies the following provisions on directorships in publicly-listed companies and with respect to Independent Directors:

- 1) A Non-Executive Director may concurrently serve as director in a maximum of five (5) publicly-listed companies. In applying this provision to directorships in entities within a conglomerate, each publicly-listed company where the Non-Executive Director concurrently serves as director shall be separately considered or assessed.⁹²
- 2) An Independent Director may likewise serve as director in a maximum of five (5) publicly-listed companies, whether or not these are within one conglomerate.⁹³

Note: The provision from SEC Memo No. 9, s2011 limiting the number of non-publicly-listed companies an independent director can hold directorships in, except within a conglomerate where the ID can be elected to only five (5) companies in the conglomerate, i.e., parent company, subsidiary or affiliate, has been removed with retroactive application effective January 1, 2017, pursuant to SEC Mem. Cir. No. 19, s2016, which supersedes SEC Memo No. 9, s2011 and no longer applies such limit.

- 3) In addition, Independent Directors must ensure that they are IDs in *all* their concurrent directorships in entities within a conglomerate.⁹⁴
- ii. The foregoing provisions notwithstanding, *application of these limitations* on directorships in BPI, its subsidiaries and affiliates, parent company, and parent company subsidiaries and affiliates *shall not impinge on or violate* a shareholder's ownership rights and legal right to vote and be voted upon as directors.

b. Interlocking Directorships

The Bank shall comply with the relevant provisions of the MORB on interlocking directorships.⁹⁵ The Board has adopted a Policy on Directors and Officers Interlocking Positions, applicable to all directors within the BPI Group, which sets out a procedure to be followed before a director can be appointed to a position at another entity. The Policy on Directors and Officers Interlocking Positions: (1) adopts the rules as provided by BSP Circular No. 1129 for determining allowable and prohibited interlocking positions; (2) establishes internal guidelines, procedures and processes for proper management of directors' and officers' interlocking positions, and;(3) sets out the minimum requirements from the circular for monitoring, compliance and regulatory reporting of director and officer interlocking positions in the BPI Group.

Employees may read the full policy on the Bank's intranet electronic databases for guidance and consultation. Directors shall likewise be provided with copies of the policy for reference. Please see Annex B for the salient policy provisions.

The Board regularly reviews interlocking board memberships to determine whether any common board memberships create real or possible conflicts of interest or impair the ability of the involved directors to exercise independent judgment or sufficiently fulfill their fiduciary duties.

3. Specific Policies for Independent Directors

a. Term Limits of Independent Directors⁹⁶

- i. Independent Directors can serve for a maximum cumulative term of nine (9) years, provided that service for a period of at least six (6) months shall be equivalent to one (1) year, regardless of the manner by which the ID position was relinquished or terminated.
- ii. After serving as ID for nine (9) years, the ID shall be perpetually barred from being elected as such in the same company, but may continue to serve as a regular director, without prejudice to being elected as ID in other companies outside of the business conglomerate, where applicable, under the same conditions as provided for in the Circular. Reckoning of the cumulative nine-year term is from 2012.
- iii. Independent Directors (IDs) elected in 2012 may be re-elected as such until 2021. However, if there are no suitable replacements, in the

⁹⁶ Section X142.3.b.(2) of the MORB as amended by BSP Circular 969: Enhanced Corporate Governance Guidelines for BSP Supervised Financial Institutions

instance that an Independent Director who has served for nine years is to be retained, the Board shall provide meritorious justification/s and seek shareholders' approval for the said re-election during the Annual Stockholders Meeting.⁹⁷

b. Termination/Cessation of Independent Directorship⁹⁸

Independent directorship shall only be terminated or ceased in case the independent director voluntarily resigns as such, his office was terminated for a cause (such as disqualification), and for other reasons based on existing rules and regulations. In case of resignation, disqualification or cessation of independent directorship and only after notice has been made with the SEC within five (5) days from such resignation, disqualification or cessation. The vacancy shall be filled by the vote of at least a majority of the remaining directors if still constituting a quorum, upon the nomination of the Committee. Otherwise, said vacancies shall be filled by the stockholder in a regular or special meeting called for that purpose. An independent director so elected to fill a vacancy shall serve only for the unexpired term of his predecessor in office.

4. Retirement Policy for Directors and Officers⁹⁹

- a. Notwithstanding the prior section on Term Limits for Independent Directors, the Bank believes that imposing uniform and fixed limits on director tenure is counter-productive as it may force the arbitrary retirement of valuable directors.

It is the Bank's strong view that with age often comes unmatched wisdom and experience, expert business judgment, invaluable industry and community relations and authority, and that the best interests of the Bank are served by its being able to retain directors that make very meaningful contributions to the Board and the organization regardless of age.

The Bank, therefore, will set the retirement age for Directors at eighty (80) years of age but which the Board may opt to waive depending on the outcome of the following conditions:

- i. Consistent and robust application of more dynamic and constructive corporate governance practices such as the annual Board of Directors' performance evaluation, regular succession planning and an exhaustive nomination process/annual fit and proper assessment for more effective board refreshment.

⁹⁸ Item , SEC Memo No. 16, Series of 2002

⁹⁹ Required under Section X142.3.b.(2) of the MORB as amended by BSP Circular 969: Enhanced Corporate Governance Guidelines for BSP Supervised Financial Institutions

- ii. The Board shall also evaluate all facts and circumstances when considering a director's tenure in accordance with good governance practices, including (without limitation) to accommodate the transition of a new CEO or new directors or to provide continuity to further strategic objectives or address external factors affecting the Bank.

Directors do not receive any retirement benefits. The Executive Director is eligible for regular retirement benefits given to employees of the Bank.

- b. Retirement of Officers is done with the requisite succession planning and in accordance with the Bank's policies and implementing guidelines of its retirement plan for all employees, the Bank's Amended By-Laws, Labor Code and the Corporation Code of the Philippines.

5. Remuneration Policy for Directors and Officers

- a. Remuneration and/or benefits for Directors shall be sufficient to attract and retain directors and compensate them for attendance at meetings of the Board and Board Committees, commitments to time and specific contributions through chairmanship and membership in board committees. As also mandated in the Amended By-Laws¹⁰⁰, the Personnel and Compensation Committee is tasked to recommend remuneration of the Board of Directors, based on size and scope of the Bank, industry standards and set by reference to the numerous responsibilities taken on by directors as well as for undertaking certain risks as a Board member. The remuneration framework is reviewed annually to ensure that it remains competitive and consistent with the Bank's high performance culture, objectives, and long-term risk assessment and strategies.¹⁰¹ The compensation which may be in various forms, shall be fixed by way of a resolution of the Board of Directors. The Board of Directors may provide that only non-executive directors shall be entitled to such compensation.

- i. Executive Director

The CEO/Executive Director receives remuneration as Officer and not as Director of the Company.

- ii. Non-Executive Directors

The Bank's By-Laws provides that¹⁰²,

“Non-executive directors shall be entitled to receive from the Bank, such retainer fees, reasonable per diems and other compensation as may be fixed by the President upon

¹⁰¹ Personnel and Compensation Committee Charter

recommendation of the Personnel and Compensation Committee, provided that in no case shall the total yearly compensation of non-executive directors exceed one percent (1%) of the net income before income tax of the Bank during the preceding year.

The Personnel and Compensation Committee of the Board of Directors shall have the responsibility for recommending to the President the fees, per diems and other compensation for non-executive directors. In discharging this duty, the Committee shall be guided by the objective of ensuring that compensation should fairly pay directors for work required in a company of the Bank's size and scope. No Director shall be involved in deciding his own remuneration during his incumbent term.”¹⁰³

To avoid any conflicts of interest, no individual director is involved or can influence decisions pertaining to his or her own remuneration.

These policies on board and executive remuneration are disclosed in the Annual Corporate Governance Report.¹⁰⁴

The SEC Revised Code of Corporate Governance requires that the annual report, information and proxy statements shall include a clear, concise and understandable disclosure of all fixed and variable compensation that may be paid, directly or indirectly, to the Bank's directors and top four (4) management officers during the preceding fiscal year.¹⁰⁵

- b. As explained in the Personnel and Compensation Committee charter, remuneration decisions for Officers must reflect the proper risk incentives, and must be aligned and support the achievement of sustainable, long-term value creation. Apart from ensuring that management pay appropriately reflects industry conditions and is linked to financial performance delivered, management remuneration must reflect the interests of the shareholders and the Bank, and must be structured to encourage the long-term commitment of the employee. Factors to consider include revenues, volume, earnings, EPS, ROE, ROA, capital strength, risk containment, corporate governance, customer satisfaction, adherence to corporate values, contributions both to operating unit and company-wide achievement.¹⁰⁶

6. Liability of Directors

C. BOARD COMMITTEES

The Board has established committees to assist in exercising its authority in monitoring performance of the Bank, within the limits allowed by law. These Board committees provide organized and focused means for the directors to achieve specific goals and address issues, including those related to governance.¹⁰⁷

All the board-level committees have Committee Charters which state their respective purposes, memberships, structures, operations, reporting processes, resources and other relevant information which may serve as a basis for performance evaluation of each committee. Said Committee Charters are fully disclosed on the company website.¹⁰⁸

The Board of Directors shall constitute, at a minimum, the following committees:¹⁰⁹

1. Audit Committee
2. Risk Management Committee
3. Corporate Governance Committee
4. Related Party Transactions Committee

Currently, the Bank has eight (8) Committees as follows: Executive Committee, Audit Committee, Nominations Committee, Personnel and Compensation Committee, Corporate Governance Committee, Risk Management Committee, Related Party Transaction Committee and Pension/Retirement Committee.¹¹⁰

1. Executive Committee

The Board shall appoint from its members an Executive Committee composed of not less than five (5) members.

III. CODE OF BUSINESS CONDUCT & ETHICS

A. Overview of the Employee’s Code of Conduct

The Bank has a Code of Business Conduct and Ethics, a separate policy document which stands as the exceptional standard set for BPI employees that guides what they say and do, in order that the right decisions are taken in performing their respective roles and responsibilities across various functions in the Bank and in handling relationships with all stakeholders.¹⁶²

Built around the Bank’s Mission and Vision, its Credo and Core Values, the Code provides an overview of key practices and behaviors that define the conduct to which we hold ourselves accountable for and the behavior that is expected of all Employees at all levels in the organization. In an environment fraught with banking risks, our Code of Business Conduct and Ethics is not simply a declaration of principles, but is also a vital part of our risk management strategy. The Code is applicable to and mandatory for all BPI professionals at all levels, regardless of their individual role, position or practice, including officers and staff.

All employees, including officers, are expected to apply the Bank’s Core Values when putting into practice the Code of Business Conduct and Ethics guidelines in order to maintain professionalism, integrity, mutual respect and fairness in the daily course of business and interactions with co-employees or any other points of contact (internal or external). All officers and employees are expected to conduct themselves with proper decorum and in a manner promoting organizational growth as well as to meet corporate objectives.

respect to the local Human Resources Units of principal, direct and indirect subsidiaries and the respective Unit or Department Heads.

Every officer and employee has the responsibility to fully read, understand and comply with the Code of Business Conduct and Ethics and all its related policies in order to be aware, at all times, of the pertinent procedures, regulations and other requirements therein that are relevant in carrying out BPI's business.

B. Overview of the Director's Code of Conduct

Our Board of Directors has also adopted its own Code of Conduct (the "Director's Code") which applies to and is binding on all directors of the Bank. The Director's Code is intended to provide guidance to directors, whether executive, non-executive or independent, with policies on standards for conduct of the business of the Bank, the protection of the rights of the Bank and of its stakeholders, maintaining BPI's reputation for integrity and fostering compliance with laws and regulations applicable to the Bank and its Directors.

As the highest governing body of the Bank that provides direction on its business and delegates the conduct of such business to Management under the leadership of the Chief Executive Officer, the Board has a special role in the integrity and accountability framework of the Bank and must uphold exceptional standards for honesty, impartiality, and independence, and avoid even the appearance of questionable conduct or perception of irregularity in its decisions and actions.

The Director's Code, therefore, sets forth policy in several basic areas that commonly require Directors to exercise sound and informed judgment, recognize and deal with ethical issues, report possible unethical conduct, and foster a culture of openness, fair dealing, diligence and accountability.

In order to ensure compliance, all employees, including the senior officers and directors, will acknowledge on an annual basis, through the Statement of Affirmation, that they have read and understood the Code of Business Conduct and Ethics and the Director's Code, respectively, as well as the Bank's Manual of Corporate Governance, and will fully comply and adhere to the principles, standards and policies therein.¹⁶³

C. Related Policies under the Code of Business Conduct and Ethics

Major internal policies are also in place to lend guidance, provide support and lay the proper context for employees' adherence to the Code of Business Conduct and Ethics, such as: Conflict of Interest Standards, Insider Trading Policy, Whistleblower Policy and Related Party Transactions Policy. These policies are comprehensively detailed in separate policy documents approved by a Committee of the Board or by the Board of Directors and provide focused guidance about the

¹⁶³ BSP Circular No. 900, Guidelines on Operational Risk Management, Section 3. Duties and Responsibilities of the Board of Directors, (5), p.4.; 2016 SEC Code of Corporate Governance for Publicly-Listed Companies, Recommendation 7.1 and 7.2.

relevant subject as well as include additional requirements with which employees must comply.

1. Conflict of Interest Standards

The personal interest of directors and officers should never prevail over the interest of the Corporation. They are required to be loyal to the organization so much so that they may not directly or indirectly derive any personal profit or advantage by reason of their position in BPI. They must promote the common interest of all shareholders and BPI without regard to their own personal and selfish interest.

- a. A conflict of interest exists when a director or an officer of BPI:
- Supplies or is attempting to supply goods or services to BPI.
 - Supplies or is attempting to supply goods, services or information to an entity in competition with BPI.
 - By virtue of his office, acquires or is attempting to acquire for himself a business opportunity which should belong to BPI.
 - Is offered or receives consideration for delivering BPI's business to a third party.
 - Is engaged or is attempting to engage in a business or activity which competes with or works contrary to the best interest of BPI.

If an actual or potential conflict of interest should arise on the part of directors, it should be fully disclosed and the concerned director should not participate in the decision-making. A director who has a continuing conflict of interest of a material nature should either resign or, if the Board deems appropriate, be removed from the Board.¹⁶⁴

- b. A contract of BPI with one or more of its directors or officers is voidable, at the option of BPI, unless the following conditions are present:
- The presence of such director in the board meeting in which the contract was approved was not necessary to constitute a quorum for such meeting.
 - The vote of such director was not necessary for the approval of the contract.
 - The contract is fair and reasonable under the circumstances.
 - In case of an officer, the contract has been previously approved by the Board of Directors.

¹⁶⁴ 2016 SEC Code of Corporate Governance, Recommendation 5.6 and 8.3.

Where any of the first two conditions set forth in the preceding paragraph is absent, in the case of a contract with a director, such contract may be ratified by the vote of stockholders representing two-thirds (2/3) of the outstanding capital stock in a meeting called for that purpose; provided that full disclosure of the adverse interest of the director involved is made at such meeting; and provided further that the contract is fair and reasonable under the circumstances.

- c. Where a director, by virtue of his office, acquires for himself a business opportunity which should belong to BPI, thereby obtaining profits to the prejudice of BPI, the director must account to the latter for all such profits by refunding the same, unless his act has been ratified by a vote of the stockholders owning or representing at least two-thirds (2/3) of the outstanding capital stock. This provision shall be applicable notwithstanding the fact that the director risked his own funds in the venture.

The foregoing is without prejudice to BPI's existing Rules or Code of Conduct and Ethics for its officers, employees and staff.

- d. A Director or Officer shall not disclose, reveal, or share, by whatever means or method, to any person or entity, any information especially all vital and/or confidential information it has learned, obtained, or acquired in any manner by reason of, and in the course of performing the whole or any portion of his obligation and duties as Director or Officer of BPI without the prior written consent of the Bank.
- e. **Gifts Policy (Request or Acceptance of Commission, Kickbacks, Gift or Gratuities from those who have dealings with Bank).**

The Conflict of Interest standards include the Bank's Gifts Policy, which prohibits direct or indirect request or acceptance of any gift, share, percentage, discounts, special privileges, or benefit for oneself or any other person in an employee's past, present or intended intervention in any dealings between the Bank and any other party with the exception of, but not limited to, the following:

- Receipt of gifts especially during the Christmas season or any occasion from clients or suppliers which should be in view or due to one's position of the bank;
- Receipt of unsolicited gifts of a token nature, promotional items

The policy requires: 1) Disclosure of items received in any occasion except during Christmas; 2) When it is not practical to return a gift, the gift shall be turned over to the Division Head and subsequently endorsed to the Group Head for proper disposition.

Under the Gifts Policy, the following are prohibited or considered violations:

- Solicitation from clients, suppliers in favor of patronizing their products or services in connection with their dealings with the Bank
- Receipt of commission from insurance agents whenever premiums are paid on account of insurance policies covering properties mortgaged to the Bank

2. Related Party Transactions Policy

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence which include affiliates. Related parties may also be individuals or corporate entities.

Because transactions with related parties can be abused, the terms of such transactions are of vital interest to majority and minority shareholders alike, i.e., the interests of shareholders, as a whole, and of all stakeholders must be fully protected.

The Related Party Transactions Policy guards against internal conflicts of interest between the company and/or its group and their directors, officers and significant shareholders and ensures that transactions such as loans and advances, deposit arrangements, trading of government securities and commercial papers, sale of assets, lease of bank premises, investment advisory/management, service arrangements and advances for operating expenses are made in the normal course of banking activities with terms and conditions that are generally comparable to those offered to non-related parties or to similar transactions in the market.¹⁶⁵

This is done through the Related Party Transactions Committee which assists the Board in assessing material agreements of any kind with a related party in determining whether to approve, ratify, disapprove or reject a Related Party Transaction.¹⁶⁶ The committee takes into account whether or not the RPT is entered into on terms no less favorable to the Bank than terms generally available to an unaffiliated third-party under the same or similar circumstances. For transaction involving a sale of the Bank assets, it reviews results of the appraisal, valuation methodology used as well as alternative approaches to valuation. The Committee then assesses the extent of the Related Party's interest in the transaction.

¹⁶⁵ 2016 SEC Code of Corporate Governance for Publicly-Listed Companies, Recommendation 8.5.

¹⁶⁶ 2016 SEC Code of Corporate Governance for Publicly-Listed Companies, Recommendation 2.7.

Basis for evaluation of a Related Party Transaction:

- Terms of the transaction
- The Related party's Interest in the transaction
- The purpose and timing of the transaction
- Whether or not the Bank is a party to the transaction and, if not, the nature of the Bank's participation in the transaction.
- If the transaction involves the sale of an asset, a description of the asset including date acquired and costs basis.
- Information concerning potential counterparties in the transactions, approximated value of the transaction and approximated value of the Related Party's interest in the transaction.
- Description of any provisions or limitations imposed as a result of entering into the proposed transactions.
- Whether the proposed transaction includes any potential reputational risk issues that may arise as a result of or in connection with the proposed transaction; and,
- Purpose of the transaction and potential benefits to the Bank.

The Committee may also call on independent experts to help with valuation issues, if needed, to also ensure that the interests of the Bank and stakeholders are protected.

The Committee meets monthly to vet on credit and non-credit related party transactions of significant amounts above the material threshold of P50Mn.

RPTs are properly disclosed in the Bank's audited financial statements, and other applicable filings in accordance with the relevant rules and issuances of the Securities and Exchange Commission and other regulatory bodies.¹⁶⁷

a. **Material Related Party Transactions**

Material RPTs shall refer to transactions amounting to ten percent (10%) or more of the Bank's total assets based on the latest consolidated audited financial statement subject to the SEC rules. Details of the policy are posted on the company website of the Bank at www.bpi.com.ph.

3. Insider Trading Policy

The Bank has an insider trading policy which prohibits its directors, officers, employees of BPI and BPI's subsidiaries, and other parties who are considered to have knowledge, made aware of or have access to undisclosed material information, i.e., material facts that have not been disclosed to the public, including any information that will likely affect the market price of BPI's securities or BPI clients' securities, from buying or selling BPI stocks for their

Violation of the policy shall be subject to disciplinary action as may be determined by management or the Board of Directors, without prejudice to any civil or criminal proceedings which BPI or the regulators may file for violation of existing laws. Under the law, insider trading may be subject to penalty for damages or fine and/or imprisonment.

4. Whistleblower Policy

includes government and regulatory agencies, non-government and civil society groups and industry organizations.

Our engagement with stakeholders takes on various forms and is carried out through a range of information, communication and consultative activities and disclosures. We conduct dialogues about our role in society, products and services, business performance and other issues.

This active engagement allows us to identify our most significant stakeholder groups and their specific interests, and determine the most significant issues from the economic, environmental and social sustainability perspective. It also allows us to become more responsive in addressing a wide range of concerns, from customer service to financial solutions, shareholder return, operational strategies, business outlook, regulatory compliance, and employee compensation.

The outcomes of our stakeholder engagement also influence our risk-management processes, allowing us to address potential risks and align the management of issues with our business processes and strategies. It also helps us improve and innovate our products, services, systems, operational processes and banking practices.

5. Anti-Bribery and Anti-Corruption Policy

The Bank has an Anti-Bribery and Anti-Corruption Policy (ABC Policy) that puts the highest premium on sound, responsible and effective corporate governance and promotes zero tolerance for bribery, corruption or improper acts of any kind in all business dealings. Bribery or corruption does not only involve monetary consideration. Bribery or corruption may also involve favors or other material gain such as employment, etc. As such, the Bank has enabled and equipped officers and Employees, with the requisite policies, programs and guidance through its Code of Business Conduct and Ethics and Standards on Conflict of Interest to combat risks in corruption and bribery.

The ABC Policy sets the minimum standards with respect to the Bank's stance on bribery and corruption and sets out the policies and procedures for the Bank's full compliance with all applicable anti-bribery and anti-corruption laws. The establishment of the ABC policy also supports the Bank's three operational objectives: (1) to secure an appropriate degree of protection for its customers as well as the Bank; (2) to protect and enhance the integrity of the Philippines' financial system; (3) and to promote effective competition in the interests of the Bank's customers.

All BPI directors, officers and employees must be familiar with and, at all times, act in compliance with the ABC Policy, with Republic Act No. 3019 (Anti-Graft and Corrupt Practices Act) and with all applicable anti-corruption laws and regulations where their work or services are performed. It is the responsibility of all covered parties to read, understand and comply with the policy. The ABC Policy should be read in conjunction with the Bank's Core Values, Manual on Corporate Governance, Director's and Employee's Code of Business Conduct and Ethics, Conflict of Interest standards and associated policies of the Bank. The Bank has other policies, such as the Whistleblower Policy, that may require reporting of breaches and possible breaches of law, regulation, and policy. Nothing in this policy is intended to limit employee rights or any protections that may be applicable to employees in connection with making any such report.

Under the ABC Policy, anybody who knowingly aids, abets or conceals or otherwise deliberately permits the commission of any irregular, illegal or fraudulent act directed against the Bank shall be considered as guilty as the principal perpetrators of the fraud, illegal act or irregularity. All employees of the Bank have a duty to cooperate with investigations initiated under this policy.

Likewise, the ABC Policy not only prohibits direct corruption involving personnel within BPI, but also indirect involvement by way of third parties committing corruption on the Bank's behalf. BPI's zero tolerance stance with respect to corruption shall be communicated to all business partners at the outset of the business relationship with them and as appropriate thereafter. This prohibition includes falsifying or concealing any books, records or accounts that relate to the business of the Bank, its customers, suppliers or other business partners.

D. Dissemination of the Code

The Code of Business Conduct and Ethics together with related policies on conflict-of-interest, insider trading, whistleblowers and other guidelines are embodied in this Corporate Governance Manual and included as well in the Bank's Management and Operating Manual and Personnel Policy Manual, each of which is published and available for viewing on the Bank's intranet electronic databases, readily accessible for guidance and consultation of Bank employees. Aside from availability in these databases, Bank policies are regularly announced via internal email-facility to ensure constant top-of-mind

awareness of the need to comply with these policies. The Code is also posted on the company website of the Bank at www.bpi.com.ph.¹⁷⁰

E. Compliance with the Code

In order to ensure compliance, all employees, including the senior officers and directors, will acknowledge on an annual basis, through the Statement of Affirmation, that they have read and understood the Code of Business Conduct and Ethics as well as the Bank's Manual of Corporate Governance, and will fully comply and adhere to the principles, standards and policies therein.¹⁷¹

All directors, officers and employees of the Bank are given proper instruction on their respective duties as mandated in the Corporate Governance Manual and internal mechanisms are in place to ensure such compliance with the Bank's policies on conflict-of-interest, insider trading, whistleblowers and other guidelines embodied in this manual as well as guidelines in the Bank's Management and Operating Manual and Personnel Policy Manual. Such internal mechanisms are discussed in the following section.

IV. COMPLIANCE SYSTEM AND INTERNAL CONTROL

The Compliance System of BPI is basically a two-tiered system. The primary level is achieved through self-regulation within each work unit, department, division, group by consciously abiding by provisions of this Manual, adhering to stated company policies, and to BPI's code of conduct.

The secondary level is conducted through the audit function which is performed by both the Internal Audit Division and the Compliance Office as well as the external auditors appointed by the Board. The compliance review by internal auditors and external auditors, in turn, are reviewed and evaluated by the Audit Committee of the Board of Directors.

A. Compliance Office

The Bank's Compliance Office is charged with nurturing the bank's culture for integrity, ethical business practice, and fair dealing. It is directly accountable to the bank's Audit Committee. Beyond the regulations that immediately impact operations, in particular, those of the Bangko Sentral, Securities and Exchange Commission, and the Philippine Deposit Insurance Corporation, the Compliance Office also places great emphasis on valuing the Bank's reputation and strengthening the trust given by the Bank's shareholders, clients, employees, partners, and members of the financial and local communities.

The Compliance Office oversees the implementation of the Bank's enterprise-wide compliance programs. The programs take into account the size and complexity of the Bank, the relevant rules and regulations that affect its operations, and the business risks that

may arise due to non-compliance. By using regulatory and self-assessment compliance matrices, compliance measures are formulated to mitigate identified business risks and tested to ensure effectiveness.

B. Internal Audit

The Board of Directors is responsible for fostering the Bank's internal control culture that promotes integrity, morality and competence throughout the organization. The Board has the primary responsibility to review and approve systems and processes proposed by Management to identify, monitor, and control major operating risks impacting the business. Two board-level committees form part of this internal control system: the Risk Management Committee and the Audit Committee.¹⁷²

Management is responsible for implementing strategies and policies approved by the Board and establishing an effective system of internal control.

Internal Audit is an integral part of the Bank's internal control system which assists the Audit Committee in the discharge of its oversight responsibilities by providing an independent reasonable assurance that the Bank's system of risk management, internal controls, and corporate governance processes are adequate and effective, as well as ensuring that operating and business units adhere to internal processes and procedures and to regulatory and legal requirements.¹⁷³

The role/responsibility and scope of internal audit work are defined in the Internal Audit Charter, which is reviewed annually and approved by the Audit Committee. Internal Audit conducts an annual planning, review of risk universe, and risk assessment to come up with the annual work plan to be presented to the Audit Committee for its approval. Status/Progress of this work plan is also regularly presented to the Audit Committee for monitoring.¹⁷⁴

For each audit engagement/activity, findings/issues are documented thru the Audit Operative Reports (AOR) that are being discussed and provided to the respective Unit Heads/Process Owners for their response and to indicate actions to be taken, including the timeline. This would be the basis for the conduct of an "Exit" conference with the Unit, and basis for the preparation of the Audit Executive Report that would be submitted and presented to the Audit Committee.

At the end of the year, an annual Internal Audit report, which contains the overall assessment on the internal control system of the Bank, is also being prepared and submitted to the Audit Committee.

¹⁷⁵ 2016 SEC Code of Corporate Governance for Publicly-Listed Companies, Recommendation 9.1.

At management level, risk management is carried out by the RMO and its dedicated team of skilled risk managers and senior officers who have extensive prior operational experience working within the Bank. The Bank's risk managers regularly monitor key risk indicators and report exposures against carefully-established credit, market, and operational and IT risk metrics and limits approved by the Risk Management Committee. C. Alternative Dispute Mechanism¹⁸⁷

It is the policy of the Bank to resolve disputes or differences with stockholders, regulatory authorities and other third parties, if and when such disputes or differences arise, through mutual consultation or negotiation, mediation or arbitration. If the agreement between the Bank and third parties has an arbitration clause, arbitration is the ADR system being adopted. If none, the Bank initiates conciliation- earnest effort to arrive at amicable settlement. If everything fails, and the dispute progresses into court litigation, the Bank strictly adheres to and complies with Supreme Court A.M. No. 11-1-6-SC-PHILJA dated January 11, 2011 [Consolidated and Revised Guidelines to Implement the Expanded Coverage of Court-Annexed Mediation (CAM) and Judicial Dispute Resolution (JDR)]. Relative to regulatory authorities, the Bank adopts and complies with the alternative modes of dispute resolution they are using or promoting such as, but not limited to, mediation, conciliation and arbitration, in compliance with Republic Act No. 9285 (Alternative Dispute Resolution Act of 2004).

VIII. STAKEHOLDER ENGAGEMENT

It is the policy of the Bank to develop and sustain relationships with all stakeholders. Our stakeholders may be grouped into two: those who are directly affected by our business operations and outcomes, and those who guide and influence us in carrying out our business. The first group consists of investors, clients, employees, creditors, suppliers and the community at large; the latter includes government and regulatory agencies, non-government and civil society groups and industry organizations.

Our engagement with stakeholders takes on various forms and is carried out through a range of information, communication and consultative activities and disclosures. We conduct dialogues about our role in society, products and services, business performance and other issues. This active engagement allows us to identify our most significant stakeholder groups and their specific interests, and determine the most significant issues from the economic, environmental and social sustainability perspective.

¹⁸⁶ 2016 SEC Code of Corporate Governance for Publicly-Listed Companies, Recommendation 13.2, 13.3, and 13.4.

¹⁸⁷ 2016 SEC Code of Corporate Governance for Publicly-Listed Companies, Recommendation 13.4.

Stakeholder engagement also allows BPI to become more responsive in addressing a wide range of concerns, from customer service to financial solutions, shareholder return, operational strategies, business outlook, regulatory compliance, and employee compensation. The outcomes of our stakeholder engagement influence our risk-management processes, allowing us to address potential risks and align the management of issues with our business processes and strategies. Our stakeholder engagement also helps us improve and innovate our products, services, systems, operational processes and practices.

A. Clients

The Bank's Credo holds that BPI's first responsibility is to our clients. If we understand and address clients' financial needs, we will be trusted with their most important financial transactions, and we will build lasting relationships. We do well when our clients do well. We continue to focus on how we respond more effectively to the customers' financial needs. We strive to deepen our understanding of customer expectations to allow us to improve the way we do business.

B. Employees

The Bank strives to be an employer of choice among Philippine financial institutions. With strengths in three main employee engagement drivers - career development and opportunities, goal clarity, and leadership - we endeavor to introduce more initiatives to boost competency development among our officers and staff, accelerate promotions, and identify the right metrics to better align human resource measures with corporate strategy. Moreover, we work to provide a safe, secure and conducive working environment for our employees, to continually safeguard their rights and provide equal opportunity for everyone to realize their fullest potential and make them agents of uplifting change for their communities.

C. Stockholders

We treat capital as a most valuable asset, and seek to generate superior returns for our stockholders, while being prudent in risk-taking, spending and investment. The Bank treats all its stockholders equally, whether they have majority or minority interest and is committed to respect the rights of stockholders.

D. Investors

As with our stockholders, we treat our investors as strategic partners for growth, and we are accountable to them for our long-term, engaged capital. We put a premium on ensuring prompt, timely and full disclosure to our investors, especially given the rapid evolution of the banking industry and the shifting structure of the financial markets.

E. Creditors

We respect the rights of our creditors – who may be any individual or entity with a valid claim against the Bank and includes our depositors - and endeavor to effectively and efficiently fulfill our role and responsibilities to them. In protecting the rights of our creditors and performing our duties as an issuer, we aim to also strike a balance to manage the diverging interests of shareholders and creditors and minimize the costs of equity and debt.

F. Regulators

Part of responsible stewardship and value-driven management and control of the Bank is to ensure that our banking practices are not only reflective of the integrity and ethics that defines the Bank's decision making, conduct and behavior, but are also consistent with statutory laws, rules and regulations of our esteemed regulatory bodies. The Board of Directors and Management design Bank policies, processes and work environment for accountability to BPI's shareholders, regulators and all other stakeholders, knowing that this is a crucial and key driver of high performance.

G. Suppliers

In ensuring a global supply chain for its business of banking, the Bank operates with a focus on two areas:

Environment-Friendly Value Chain. BPI also recognizes its role as a responsible financial institution, both as a resource user and generator of waste. In our business operations, we reduce our negative impact to the environment through responsible environmental leadership across the organization, making us more cost-effective and helping improve our margins.

The Bank's policy on environmental responsibility starts from within, by adopting policies, standards and practices to make the workplace not just a conducive environment for work, but also a place that works better for the environment. We have put in place a system of tracking the environmental impact of our places of business. We also encourage our clients, suppliers and partners to reduce their environmental footprint.

Sustainability. At all times, our goal is to work collaboratively with our supply chain partners on sustainability. Our supply chain must not only be sustainable; it must also work towards improving the lives of workers, their communities and the environment. It is essential that our suppliers promote fair and sustainable development and comply with national laws and internationally recognized standards and conventions for ethical, environmental and social conditions.

Governance. From a governance standpoint, the commercial transactions with our suppliers should be economically beneficial to all parties involved and relationships should be based on the principle of fair and honest dealings, and be in compliance with

internal policies that are in place to stop fraud, money laundering, bribery and corruption as well as be in adherence with local or international laws and regulations.

BPI has an established Supplier Accreditation and Dis-accreditation Policy that covers all processes involved in the contracting of suppliers, service providers, and business partners, and all personnel involved in the administration and execution of these processes. The policy focuses on giving equal opportunities for qualified suppliers and contractors. BPI operates on the principle of transparency with suppliers and works collectively with suppliers to ensure their adherence to the policy.

H. Communities

We undertake initiatives that help improve the lives of people in the communities where we are, by embedding corporate social responsibility in our business and encouraging employee volunteerism. We also carry out CSR initiatives through the BPI Foundation, the Bank's social development arm, promoting not only financial empowerment, but also education, entrepreneurship and care for the environment.

IX. SUSTAINABILITY

BPI is committed to Responsible Banking. This means incorporating environment, social, governance (ESG) principles into how we conduct our business - how we resource, the products and services we offer, the customers we serve, and how we add value to our various stakeholders.¹⁸⁸

The Bank takes a holistic approach in managing environment and social (E&S) risks and integrating sustainability principles in its business and operations. BPI considers risk and opportunities inherent to its business, as well as E&S risks, and supports the United Nations Sustainable Development Goals (UN SDGs).

The Bank's Sustainability objectives are embodied in the Sustainability Strategy Framework with the two pillars of responsible banking and responsible operations.

- Responsible Banking: Supporting Nation Building, Financing Sustainable Development, and Financial Inclusion
- Responsible Operations: Environmental Sustainability and Social Responsibility

The Board of Directors, through the Executive Committee, has overall responsibility for sustainability-related issues, including integration of sustainability principles in the strategic direction, objectives, policies, and corporate governance frameworks. The Sustainability Council, chaired by the Chief Sustainability Officer, is the senior management-level committee in charge of implementing the Board-approved Sustainability Agenda of BPI.

POLICY STATEMENT ON GROUP OVERSIGHT

The overall responsibility for the sound and prudent management of the BPI group rests with the Board of Directors of BPI.¹⁹¹

In a group structure, the board of the parent company has the overall responsibility for the group and for ensuring the establishment and operation of a clear governance framework appropriate to the structure, business and risks of the group and its entities (Principle 5).¹⁹²

As such, the BPI Board ensures that in its provision of subsidiary oversight, it balances the diverging interests within the group, without prejudice to the governance of the individual entities. The oversight framework is also structured to ensure appropriate independence and a high degree of integrity in each entity's conduct of its affairs, allowing the prudential and legal obligations of the Bank, individual entities, and the group, as a whole, to be effectively met while also supporting attainment of strategic business goals

The following are the overarching principles for subsidiary oversight which shall apply to the entities in the BPI group to the extent that they are not stipulated otherwise under prevailing laws, rules and regulations of the BSP, SEC or other regulators of the Financial Services Industry.

A. BPI Group Oversight Principles

1. Oversight and control functions are delegated to the subsidiary boards.
2. The BPI Board of Directors shall exercise adequate oversight of subsidiaries, while respecting independent legal and governance responsibilities.
3. While each subsidiary is autonomously managed by its board, subsidiary boards should consider the interest, risk appetite and strategy of the group. Where a subsidiary is wholly owned by BPI, no conflicts exist and the subsidiary board should act simply for the interest of the parent, BPI, in accordance with the governance strategy set by the Bank.
4. In general, the fundamental responsibility of the subsidiary board includes strategy and risk appetite setting and management monitoring. Under the group structure, the BPI Board appropriately defines the strategy and risk appetite of the group, and ensures that this strategy is implemented and executed in the various entities, through a system which defines clear lines of responsibility and accountability across the group, consistent with applicable regulatory and legal requirements.
 - In consequence, subsidiary boards shall formulate subsidiary level strategies, objectives and goals that shall contribute to the overall strategy set by the BPI Board.

¹⁹¹ Section 132, Manual of Regulations for Banks or BSP Circular 969: Enhanced Corporate Governance Guidelines for BSFIs, 2017

¹⁹² Basel Committee on Banking Supervision - Corporate Governance Principles for Banks, July 2015

5. The secondary function of the subsidiary boards is management monitoring, focused on, but not limited to, the following key components of the governance framework: appointment, evaluation and removal of senior management; risk management; internal control; compliance; and internal audit.
6. In this respect, the BPI Board of Directors shall also establish a framework for monitoring compliance with the strategy and risk appetite across the group and shall regularly assess the strategy and risk appetite of the group to ensure that it remains appropriate as group operations grow and evolve. This includes establishment in BPI of the appropriate organizational structure, policies and processes to ensure, among others, the following:
 - performance of fiduciary responsibilities of the boards of directors and senior management of the Bank and its subsidiaries;
 - nomination and appointment of suitable board members, senior management and key persons in control functions at the subsidiary level;
 - alignment of remuneration as well as performance evaluation policies and practices;
 - comprehensive and effective performance of internal audit, risk management and compliance functions;
 - coordination and management of information flows and reporting procedures;
 - prevention of conflicts of interest and monitoring and reporting of related party transactions; and
 - identification, recognition and management of stakeholder interests.
7. Inasmuch as the appropriate oversight framework or model may vary from one subsidiary to another, and may also vary over time depending on the changing operational circumstances of BPI, the subsidiaries, or both, boards at both levels shall remain focused on their fiduciary duty to act in the best interests of their entity as well as that of the entire organization.
 - a. The actions of the subsidiaries shall require the approval of the parent when on matters related to investment and expenditure and especially on significant accounting issues where judgement is involved.
 - b. While the BPI parent Board has performance expectations from its subsidiaries under this group oversight framework, responsibility for compliance with their respective prudential and legal obligations, including monitoring and regulatory reporting, shall reside first and primarily with the boards and management of the respective subsidiaries.
 - i. In particular, for foreign or overseas subsidiaries with other primary regulators and operating in different legal and tax jurisdictions or under their host country statutory laws and regulations, BPI parent board and committee oversight is limited and shall be practiced on an exception basis.

B. Group Wide Policies

1. The subsidiary oversight framework includes the subsidiaries' adoption of key group-wide governance policies to ensure that the subsidiaries' corporate practices are closely aligned with those at BPI and allow them to better manage risk, audit and compliance issues.

BPI Group entities shall adopt and adhere to the Group Policies established at BPI and apply procedures and practices that remain consistent with said Group Policies.

1. The board of a subsidiary shall establish its own company policies in line with its own legal requirements or in proportion to its size, risk appetite or business. These should not, however, run in conflict with the BPI Group Policies.
 2. Subsidiary boards shall make necessary adjustments where a group policy conflicts with an applicable legal or regulatory provision or prudential rule, or would be detrimental to the sound and prudent management of the subsidiary. In particular, the subsidiary board shall take such further steps as are necessary to help the subsidiary meet its own corporate governance responsibilities and the legal and regulatory requirements that apply to it.
 - a. Appropriate alternate governance practices to address legal or regulatory provisions or prudential rules applicable to subsidiaries should be made known to the BPI Board of Directors or the appropriate BPI board-level committee for proper consideration.
 3. In this respect, the Group Policies established by the BPI Board of Directors shall be implemented at the subsidiary level via the appropriate governance mechanism. This may be through the chairman of the subsidiary board, the subsidiary president and CEO or a subsidiary board-level committee.
2. Group-wide policies include, among others, the following:
 - a. Anti-Bribery and Anti-Corruption Policy
 - b. Employee Code of Business Conduct and Ethics
 - c. Directors' Code of Conduct
 - d. Conflict of Interest standards
 - e. Board Diversity Policy
 - f. Remuneration Policy
 - g. Insider Trading Policy
 - h. Related Party Transactions Policy
 - i. Data Privacy Policy
 - j. Supplier Accreditation Policy
 3. Effective adoption and implementation of the foregoing group-wide policies shall consider material differences in the subsidiary's corporate culture and operational circumstances.

4. Approval levels and decision-making follows the group level policies and guidelines and require approval of transactions at the parent board level if these transactions are significant enough, i.e., any individual transaction or arrangement that exceeds or is likely to exceed the material thresholds established under the Related Party Transactions Policy.
