OUTLOOK AND STRATEGY

Market Review. The 10-year benchmark German Bund yields rose 7 bps in August to -0.39%.

Annual EU inflation rose 2.2% in July from 1.9% in the previous month, moving past the European Central Bank's 2% target as energy prices rose. Manufacturing PMI fell to 61.4 in August from 62.8 in July and services PMI fell to 59 in August from 59.8 in July, with both sectors still in expansion although momentum has softened with the EU likely passed its peak growth rate.

The EU parliament was in recess in August and no announcements were made by the ECB. Markets await the next ECB meeting on September 9 for further guidance. The COVID-19 pandemic remains a threat to recovery as the spread of the Delta variant caused cases to rise rapidly globally.

Fund Performance. The Fund returned 0.19% for the month, beating its benchmark by 25 basis points. Year-to-date, return amounted to 0.71%, outperforming its benchmark by 115 basis points.

Fund Strategy. The fund will maintain its current duration. Investors in the bond fund must be prepared to withstand short-term volatility as higher investment value is normally achieved over the medium- to long-term.
