OUTLOOK AND STRATEGY

Market Review. The Philippine Stock Exchange Index (PSEi) dropped for the third straight month on another round foreign selling as investors anticipate US President-Elect Donald Trump's resumption to power. This comes with his expected tariffs which reverberated throughout the global economy and forced investors to adopt a risk-off stance. The PSEi fell by 1.3% month-on-month to close at 6,528.79. Despite the monthly decline, the local bourse ended up positive on a year-on-year basis at +1.22%, which bucked the trend of the 4-year decline.

The Average Daily Turnover declined by 8.5% to Php4.83 billion on shortened trading days due to Holiday season. Meanwhile, foreign selling persisted for another month, registering at US\$104 million which has now stretched the full year 2024 net foreign outflow to US\$408 million. Their top sold stocks were ALI (-US\$ 37.4 million), BPI (-US\$20.3 million) and BDO (-US\$14.50 million). Foreign participation recorded at 50%, an even split with locals.

On a per stock basis, the top three index gainers for the month include: NIKL (+17.51%), WLCON (+10.00%) and SCC (+8.72%). Meanwhile, the bottom three performers include: BLOOM (-16.42%), ALI (-8.39%) and MONDE (-7.13%).

Fund Performance. The Fund returned -1.55% for the month, underperforming its benchmark by 43 basis points. Year-to-date, return amounted to 4.10%, outperforming its benchmark by 245 basis points.

Fund Strategy. The Fund will accumulate on market dips as volatility from the upcoming Trump 2.0, geopolitical risks coupled with thin market liquidity continue to persist. The Fund's preference is for companies with leading market capitalization and good fundamentals as well as defensive and high-yielding stocks.
