OUTLOOK AND STRATEGY

Market Review. The BSP unexpectedly raised its key interest rate by 75 basis points to 3.25% in an unscheduled move while noting that it would keep its doors open for further tightening as it rushes to contain broadening inflationary pressure. This came in after the Philippine inflation accelerated to 6.1% in June from the 5.4% recorded in May, marking the third consecutive month inflation breached the official 2-4% target band due to higher food prices, and transport and utilities costs. Month-on-month, yields on ended mixed. The yield on the 1-year T-Bill rose by about 71 basis points to 3.28% while the 2- and 3-year yields rose by about 30 basis points on average. Meanwhile 4- to 7-year yields fell by an average of 24 basis points, with the yield on the 10-year falling by about 74 basis points to 6.29%.

Fund Performance. The Fund returned 0.13% for the month, outperforming its benchmark by 5 basis points. Year-to-date, return amounted to 0.85%, beating its benchmark by 32 basis points.

Fund Strategy. The Fund will maintain its current duration and will be opportunistic in any increase in short-term rates.
