OUTLOOK AND STRATEGY

Market Review. The Philippine economy grew 7.4% in the second quarter of the year, falling behind the expected 8.4% growth for the period as rising inflation levels curbed consumer spending. To curb the accelerating inflation, the Bangko Sentral ng Pilipinas raised for the fourth time this year the overnight borrowing rate by 50 bps to 3.75%. The Central Bank is now set to deliver hikes of 25 to 50 basis points in the coming meetings depending on the data. Month-on-month, yields mostly closed lower except for the 1-year which rose by about 59 basis points to 3.87%. The 2- to 7-year fell by an average of 17 basis points while the 10-year also fell by about 17 basis points to close at 6.11% on August 31.

Fund Performance. The Fund returned 0.20% for the month, outperforming its benchmark by 5 basis points. Year-to-date, return amounted to 1.05%, beating its benchmark by 37 basis points.

Fund Strategy. The Fund will maintain its current duration and will be opportunistic in any increase in short-term rates.
