OUTLOOK AND STRATEGY

Market Review. Inflation printed at 4.5% in May, stable for the third straight month and in line with market expectations, as food prices fell and inflationary pressures remain benign due to limited domestic demand. National Economic and Development Authority Secretary Karl Chua expects a better Philippine economy in 2Q 2021 as the easing of quarantine measures in NCR Plus led to increased mobility and wider economic re-opening. The COVID-19 vaccination rollout in the country is picking up and at its current pace the Philippines is projected to achieve herd immunity by December 2022.

In its Monetary Board meeting last June 24 the Bangko Sentral ng Pilipinas kept the policy rate unchanged at 2.00% as expected, with Governor Diokno committing to supporting the economy for as long as necessary. BSP officials have also revised their headline inflation forecast up for 2021 to 4.0% (prev 3.9%) as global commodity prices and supply-chain bottlenecks coupled with recovery in global demand could lend upside pressures to CPI. Inflation for 2022 was kept at 3%, indicating that the BSP sees current inflation pressures to be transitory.

Demand for short tenor securities remains strong. Market players continue to park excess cash in Philippine Treasury Bills, with yields at auctions falling about 14-20 bps across 91 day, 182 day, and 364 day tenors as market liquidity remains ample and inflation printed stable. The Bureau of the Treasury also saw strong demand for the bonds on auction this month. It reissued PHP 35 Bn of the 20yr paper FXTN 25-11 with 4.625% coupon at an average yield of 5.084%, PHP 35 Bn the 7yr paper FXTN 7-64 with 3.625% coupon at an average yield of 3.685%, PHP 35 Bn of the 10 yr paper FXTN 10-65 with 2.875% coupon at an average yield of 3.719%, and PHP 35 Bn of the 5 yr FXTN 10-61 with 4.75% coupon at an average yield of 3.185%. It also took the opportunity to offer PHP 5 Bn, PHP 7 Bn and PHP 10 Bn more of the 20 yr, 7 yr and 10 yr bonds respectively via tap facility.

Month-on-month, we saw a flatter local yield curve as the yields on 3 yr local government bonds fell 2 bps while 5 yr bond yields fell 35 bps, 7yr bonds fell 23 bps, and 20 yr bonds fell 29 bps. The Bureau of the Treasury will continue to offer PHP 15 Bn of 91-day, 182-day and 364-day bills at weekly auctions in July, and will offer notably longer tenor securities at PHP 35 Bn each of 7-year (2 auctions this month), 10-year, 11-year, and 20-year bonds.

Fund Performance. The Fund returned 0.29% for the month, outperforming its benchmark by 9 basis points. Year-to-date, return amounted to 0.35%, underperforming its benchmark by 17 basis points.

Fund Strategy. The fund will maintain its liquidity and current duration. Investors in the bond fund must be prepared to withstand short-term volatility as higher investment value is normally achieved over the medium- to long-term.
