OUTLOOK AND STRATEGY

Market Review. The Bangko Sentral ng Pilipinas retained policy rates at 2.0% during its March Monetary Board meeting. The BSP also revised its inflation outlook again for 2022 from 3.7% to 4.3% and 3.3% to 3.6% for 2023 due to elevated crude oil prices. Meanwhile, February inflation stood unchanged at 3.0% from January, lower than the expected 3.2% for the month as the slowdown in food and clothing offset the faster annual increases in housing and utilities, and transportation. Month-on-month, yields rose across the board in March. The 10-year yield rose the most, up by 52 basis points, followed by the 9-year yield which rose by 41 basis points. Meanwhile, the 1-8-year yields rose by an average of 30 basis points.

Fund Performance. The Fund returned 0.04% for the month, underperforming its benchmark by 2 basis points. Year-to-date, return amounted to -0.13%, underperforming its benchmark by 16 basis points.

Fund Strategy. The fund will maintain its liquidity and current duration. Investors in the bond fund must be prepared to withstand short-term volatility as higher investment value is normally achieved over the medium- to long-term.
