OUTLOOK AND STRATEGY

Market Review. Philippine inflation accelerated to 4.0% in March 2022 from 3.0% in February 2022, coming at the top end of the BSP's projected range of 3.3%-4.1% as prices of food, housing, water, electricity, gas, other fuels, and transportation continue to rise. Before the month ended, BSP Gov. Diokno said in an interview that the central bank may consider hiking interest rates at its June 23 meeting. Yields retreated from their highs following the Gov. Diokno's comment, but still ended higher across the board in April. The 1-year yield on rose the most by about 20 basis point to 1.95% while the 10-year yield rose by about 8 basis points as of April 29. For the 2-9 year government securities, yields rose by about 11 basis points on average.

Fund Performance. The Fund returned -0.09% for the month, underperforming its benchmark by 18 basis points. Year-to-date, return amounted to -0.22%, underperforming its benchmark by 34 basis points.

Fund Strategy. The fund will maintain its liquidity and current duration. Investors in the bond fund must be prepared to withstand short-term volatility as higher investment value is normally achieved over the medium- to long-term.
