OUTLOOK AND STRATEGY

Market Review. The BPI Government Bond Index returned 0.14% in September as the belly of the curve rose while the long-end of the curve dropped. Average daily trading volume for the month amounted to PHP18.22 billion higher than August's PHP16.82 billion with trades mostly seen on the short-end of the curve.

The Bureau of the Treasury (BTr) held four FXTN auctions in September. The 3-year FXTN 3-29 and 7-year FXTN 7-70 re-issuances were partially awarded at average yields of 6.222% and 6.370% while the 10-year FXTN 10-71 re-issuance was fully awarded at an average yield of 6.420%. During the last week of the month, another 3-year FXTN 3-29 re-issuance was held and got rejected by the BTr. Had the BTr fully awarded the paper, average yields would have risen to 6.482%. Towards the end of the month, the BTr released the October auction schedule with four Treasury Bill auctions and only three FXTN issuances (5-, 7-, and 10-year tenors) with an offer size of PHP30 billion each.

In the local space, August headline inflation surged to 5.3% year-on-year, from last month's 4.7%. The food and transport costs were the main drivers of resurgence in inflation reversing the six straight months of deceleration. The Bangko Sentral ng Pilipinas (BSP) kept its policy rate at 6.25% during their September Monetary Board meeting. BSP Governor Eli Remolona mentioned that a possibility of rate hike is still on the table and the magnitude will depend on the inflation data and other crucial economic data. The BSP revised its inflation forecast upward, settling at 5.8% (from 5.6%) for 2023 and 3.5% (from 3.3%) for 2024 due to higher-than-expected inflation, increases in global and oil prices, and recent depreciation of Peso.

Fund Performance. The Fund returned 0.18% for the month, underperforming its benchmark by 12 basis points. Year-to-date, return amounted to 2.34%, underperforming its benchmark by 89 basis points.

Fund Strategy. The fund manager is looking to gradually add duration since the BSP has decided to pause hiking rates in their last 2 policy rate meetings given the easing inflationary environment. Investors in the bond fund must be prepared to withstand short-term volatility as higher investment value is normally achieved over the medium- to long-term.
