OUTLOOK AND STRATEGY

Market Review. The BPI Government Bond Index returned -0.18% in December as Philippine government bond yields rose by an average of 14 basis points (bps). Yields moved up as market participants tempered their policy rate cut expectations as US central bank officials projected fewer rate cuts in 2025. Average daily trading volume for the month fell from Php36.1 billion in November to Php32.1 billion in December, with most trades still concentrated in 5-year and 1-year securities. For the month of December, foreign investors were net sellers of Php26.1 billion, pulling the full-year 2024 total net inflow to Php56.3 billion.

The Bureau of the Treasury (BTr) held its only FXTN auction for the month on December 10, offering Php15 billion of FXTN 10-72 (9.1 years) which was fully awarded at an average yield of 5.89%.

Locally, November headline inflation rose to 2.5% year-on-year (YoY) from 2.3% YoY in October, in line with market expectations. The pick-up in inflation was driven mainly by faster food inflation due to adverse weather conditions. A series of typhoons swept through the Philippines in late-October to November, which impacted local food prices, particularly meat, fish, and vegetables.

Fund Performance. The Fund returned -0.59% for the month, underperforming its benchmark by 43 basis points. Year-to-date, return amounted to 3.23%, underperforming its benchmark by 175 basis points.

Fund Strategy. The Fund looks to maintain its duration position as interest rates are expected to decline in the medium term. While inflation has settled within the BSP's target in the past months, upside risks are still present. The BSP has decreased its policy rates by 75 basis points to 5.75% in 2024. The central bank remains vigilant in monitoring inflation figures before easing rates further. Volatility may persist in the global space, and the portfolio will be actively managed to take advantage of this. Investors in a bond fund must be prepared to withstand volatility as higher investment value is typically achieved over the medium to long term.
