- **THE FUND MANAGER IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.**

OUTLOOK AND STRATEGY

Market Review. The BPI Government Bond Index returned -0.23% in November as Philippine government bond yields rose by an average of 24 basis points (bps). Average daily trading volume for the month reached Php36.1 billion, lower than Php39.5 billion in October, with most trades concentrated in 5-year followed by 1-year papers. Despite the lower average trading volume, foreign investors' fixed income volume was net buying for the month compared to previous month's net selling.

The Bureau of the Treasury (BTr) held two FXTN auctions in November, offering the 5-, and 20-year tenors. FXTNs 20-27 (20-year) and 7-67 (5-year) were fully awarded at average yields of 6.095% and 5.954%, respectively.

Locally, October headline inflation rose to 2.3% year-on-year (YoY) from 1.9% YoY in September, well within Bangko Sentral ng Pilipinas' (BSP) forecast range of 2.0% to 2.8% for the month. The pick-up in inflation was driven mainly by faster food inflation due to adverse weather conditions for the month and tapering of favorable base effects from last year. Rice inflation in October also accelerated by 9.6% YoY from September's 5.7% YoY, breaking its 6-month deceleration streak. The reversal of the course due to year-on year base effects as rice inflation slowed in 2023 after the government implemented a rice price ceiling shortly last year.

Fund Performance. The Fund returned -0.23% for the month, at par with its benchmark. Year-to-date, return amounted to 3.84%, underperforming its benchmark by 131 basis points.

Fund Strategy. The Fund looks to maintain its duration position as interest rates are expected to decline in the medium term. While inflation has settled within the BSP's target in the past months, upside risks are still present. The BSP has already decreased its policy rates by 50 basis points year-to-date to 6.00%. The central bank remains vigilant in monitoring inflation figures before easing rates further. Volatility may persist in the global space, and the portfolio will be actively managed to take advantage of this. Investors in a bond fund must be prepared to withstand volatility as higher investment value is typically achieved over the medium to long term.
