OUTLOOK AND STRATEGY

Market Review. The Philippine Stock Exchange Index (PSEi) cooled in October following three consecutive months of strong performances. At the beginning of the month, the local bourse continued its ascent to north of 7,500 mark backed by the release of lower-than-expected local inflation print in September at 1.9%. Consequently, the Bangko Sentral ng Pilipinas (BSP) reduced policy rates by 25 basis points to 6.0% for the second time in 2024. However, the PSEi failed to overcome the 7,500 to 7,600 resistance level as profit-taking took place. This coincided with weakness on the Philippine Peso which closed to 58.10 or -3.69% month-on-month. Moreover, risk-off stance was adopted by market players as they awaited the result of the US election. The PSEi gave up 1.78% month-on-month to 7,142.96.

The market average daily turnover slowed to Php5 billion or -24% month-on-month in October. Meanwhile, foreigners continued to be net buyers at US\$22 million, which marked the 4th consecutive month of net foreign buying. Top foreign bought stocks were AC (+US\$24.5 million), BPI (+US\$15 million) and GLO (+US\$10.0 million). In terms of participation level, it was an even split between foreigners and locals at 50%.

On a per stock basis, the top three index gainers for the month include: MER (+11.82%), CNPF (+10.38%) and MONDE (+7.07%). Meanwhile, the bottom three performers include: JGS (-12.59%), WLCON (-12.02%) and ALI (-10.66%). Market breadth was skewed to the negative territory with 23 declines versus 7 advances.

Fund Performance. The Fund returned -1.93% for the month underperforming its benchmark by 43 basis points. Year-to-date, return amounted to 12.93%, outperforming its benchmark by 75 basis points.

Fund Strategy. The Fund will be defensive as uncertainties from post-US Election results, and volatility from geo-political risks coupled with thin market liquidity remain. The Fund's preference is still for companies with leading market capitalization and good fundamentals as well as dividend paying stocks.
