Frequently Asked Questions as of July 8, 2025

1. What will happen to the BPI Premium Bond Fund?

Starting July 16, 2025, the investment strategy of BPI Premium Bond Fund (the “Fund”) will be changed to allow greater flexibility in duration management.

This includes updates to the Fund’s investment objective, policy, benchmark, duration, and risk profile as follows:

Modified Duration Policy	Not more than 3 years	Not more than 8 years

A summary of the Plan Rules changes may be found in the Annex.

2. What does “duration flexibility” mean in fixed income / bond funds?

Duration is a way to understand how sensitive a bond or fund is to changes in interest rates. When interest rates move, duration helps estimate how much the value of the fund might change.

Flexible duration management means the fund manager can adjust how much the fund is affected by interest rate changes. This gives the fund manager the ability to shift between short-term and long-term investments depending on what’s happening in the market.

Having a wider range of duration options allows the fund manager to respond more quickly to changing conditions. It helps keep the Fund adaptable and aligned with the fund manager’s views and strategy, based on BPI Wealth’s outlook for the economy and interest rates.

3. Why are these changes being made?

These enhancements are designed to allow the fund manager to effectively respond to market developments and take advantage of opportunities in the local fixed income space. The goal is to help the Fund perform better over time while staying aligned with the Fund’s investment mandate.

4. How will these changes affect the Fund’s risk profile?

The Fund’s risk profile will be reclassified from Moderately Conservative to **Moderately Aggressive**, reflecting the broader duration range and more dynamic investment approach.

As an investor, this means that if your risk profile is Conservative or Moderately Conservative and you choose to keep your BPI Premium Bond Fund units, you may need to **accomplish a manual CSA waiver at a BPI branch if you agree to the additional risks** associated with the new mandate.

5. How will I be impacted by the Fund's change in risk profile?

The Fund's reclassification to a more aggressive risk profile may mean additional risks due to the potential longer bond duration of the portfolio and acceptance of higher price volatility.

Take this opportunity to revisit your Client Suitability Assessment ("CSA") especially if there have been recent changes to your personal circumstances, characteristics and preferences. This will also help determine if the Fund's new mandate continues to be aligned with your investment objectives and risk tolerance. Kindly refer to Question # 6 for a guide.

For Conservative or Moderately Conservative investors:

- By July 16, 2025, you can only subscribe or set up a new Regular Subscription Plan ("RSP") for BPI Premium Bond Fund by visiting a BPI branch. Processing these transactions via BPI online or BPI app is currently limited to funds that match your risk profile, even if you previously accomplished a CSA waiver at a BPI branch.

6. How do I update my Client Suitability Assessment (CSA)?

If necessary, you may easily update your risk profile through any of the following options:

- **At a BPI branch:** Visit any BPI branch to retake the CSA manually. Our Certified UITF Sales Personnel will guide you through the risk profiling process and answer any questions you may have.
