OUTLOOK AND STRATEGY

Market Review. The Philippine Stock Exchange rose for another month following a continued improvement in the overall environment in this stage of the pandemic. A confluence of catalysts, namely – continuous drop in the number of COVID-19 cases, rise in the vaccination rates, better-than-expected economic growth and looser restrictions – led to the positive market sentiment. The local bell-weather index even surged to 5.5% to the 7,400 level intra-month before the threat of a newly-detected “Omicron” variant pared some of the gains. The PSEi grew by 2.1% month-on-month to close at 7,200.88 in November.

Market activity was a tad lighter for the month with average value turnover at US\$201.87 million or lower by 0.3% month-on-month. In terms of foreign activity, foreigners were net buyers for the 2nd consecutive month with US\$5.03 million that came in. The follow-on offering of Synergy Grid or “SGP” buoyed inflows after registering US\$24.2 million. MSCI rebalancing also occurred at month-end which highlighted the inclusion of AC Energy and Monde Nissin. Overall, the MSCI led to a net US\$13 million worth of inflow. Foreign participation registered at 49%, higher than 41% in October.

In terms of individual stock performance, main advancers were: BLOOM (+14.56%), SMPH (+12.99%) and ICT (+9.94%) while the laggards are as follows: ACEN (-7.99%), AP (-6.84%) and JGS (-6.06%).

Fund Performance. The fund returned 1.89% in November, underperforming its benchmark by 18 basis points. Year-to-date, it outperformed the benchmark by 86 basis points with a return of 1.72%.

Fund Strategy. We remain strategic long-term buyers of Philippine equities on the back of economic recovery, favoring quality names and position on cyclical. We will continue to be nimble and take advantage on tactical opportunities.
