## OUTLOOK AND STRATEGY

**Market Review.** The Philippine Stock Exchange Index climbed yet again on improved market sentiment as optimism in the country's re-opening shifts to another gear. The country is experiencing continuous drop in the number of COVID-19 cases and thus translating to further easing of restrictions which helps boost the economy. The local bell-weather index rose by 1.46% to close at 7,054.70.

The market was more active in October after registering an Average Value Turnover of US\$202.53 or 15.7% higher than September. One of the main proponents of this higher activity was the deletion of First Gen Corp (FGEN) shortly after its tender offer. This was replaced by Wilcon Depot, Inc. (WLCON).

In terms of foreign activity, we saw foreigners turned net buyers this month at US\$8.02 million. This was buoyed by Megaworld REIT IPO and a block transaction of Union Bank. Otherwise, it would be another foreign selling month.

In terms of individual stock performance, main advancers were: RRHI (+20.17%), JFC (+14.73%), and BLOOM (+14.48%) while laggards were CNVRG (-20.50%), ICT (-7.69%) and JGS (-7.38%).

**Fund Performance.** The fund returned 1.15% in October, underperforming its benchmark by 31 basis points. Year-to-date, it outperformed the benchmark by 102 basis points with a return of -0.17%.

**Fund Strategy.** We remain strategic long-term buyers of Philippine equities that favor quality names and with position on cyclical. We will continue to be nimble and take advantage on tactical opportunities.
