¹Returns are net of fees.

²Since inception.

³Measures the degree to which the Fund fluctuates visà-vis its average return over a period of time.

⁴Used to characterize how well the return of a Fund compensates the investor for the level of risk taken. The higher the number, the better.

⁵Measures reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk.

⁶Includes accrued income, investment securities purchased, accrued expenses, etc.

*Declaration of Trust is available upon request through branch of account.

Investments in the said outlets were approved by the BPI AMTC's Board of Directors. Likewise, all related party transactions are conducted on an arm's length and best execution basis and within established limits.

* Related party in accordance with BPI AMTC's internal policy.

OUTLOOK AND STRATEGY

Market Review. The BPI Money Market Index returned 0.07% in October, with benchmark short-term government yields rising 3.06 basis points (bps) on average. The yield curve flattened, with rates on the short-end and belly of the curve rising more than the long-end. Average daily trading volume dropped to PHP13.997bn from September's PHP18.615bn with trades mostly seen on the short-end (3 months to 1 year papers) of the curve.

The Bureau of the Treasury (BTr) held four Treasury Bill auctions in October. Treasury Bills saw yields inch slightly higher throughout the month, as investors looked to the potential for rising rates globally. However, preference for the shorter end of the curve prevailed as all the auctions continued to be oversubscribed. Average rates for the last auction of the 91-, 182- and 364-day papers were awarded at 1.119%, 1.387% and 1.606%, respectively, during the last auction of the month. Towards month-end, the BTr released its November auction schedule, announcing four weekly FXTN issuances (10-, 7- and two 5-year tenors) and four weekly Tbill auctions.

In the local economic space, September inflation eased to 4.8% year-on-year, as the rise in food and transport prices slowed. The lower figure was a welcome development as there were speculations that inflation was not transitory, though some analysts continued to warn that this was just a blip and higher prices ought to be expected moving forward, given elevated global oil prices. The figure marks yet another month that inflation has been higher than the Bangko Sentral ng Pilipinas' (BSP) target band of 2-4% for the year. Nevertheless, the BSP continues to reiterate that prevailing monetary policy settings are still appropriate, given the current inflation environment and tempered growth outlook.

Fund Performance. The Fund returned -0.01% during the month, below its benchmark by 9 bps. Meanwhile, the YTD the Fund returned 0.94%, outperforming the benchmark by 15 bps.

Fund Strategy. The Fund favors the safety of Time Deposits. Expectations of monetary easing moving forward may depress short-term rates.

LIST OF PROSPECTIVE INVESTMENTS

The following are among the Fund's approved investment outlets, wherein the Trustee intends to invest depending on strategy, availability, or other market-driven circumstances:

- a) Tradable fixed-income instruments issued or guaranteed by the Philippine government or the BSP; tradable fixed-income instruments issued by financial institutions or private Corps; exchange-listed securities; marketable instruments that are traded in an organized exchange; loans traded in an organized market; and, such other tradable investment outlets/ categories as the BSP may allow.
- b) Tradable fixed-income securities issued, underwritten, or otherwise dealt by BPI and/or any of its subsidiaries, affiliates, their successors-in-interest or assignees, their directors, officers, stockholders, and related interest, and any of their trust and fund managed accounts, under such terms and conditions as the Trustee may deem to be in the best interest of the Fund.
- c) Collective investment vehicles managed by reputable fund managers the investment objectives and policies of which are generally consistent with those of the Fund, subject to then existing BSP regulations.
- d) Bank deposits and such other investments allowed under regulations issued by the BSP.
