INVESTMENT OBJECTIVE AND STRATEGY

The Fund aims to generate income by investing in a diversified portfolio of Peso denominated sovereign and corporate debt securities. The Fund aims to outperform its benchmark which is the BPI Philippine Government Bond 1-5 Year Index.

CLIENT SUITABILITY

A client profiling process shall be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust / Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The Odyssey Peso Medium Term Fund is suitable only for investors who:

- Are at least classified as moderately aggressive based on their risk profile
- Have an investment horizon of at least three (3) years

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

Interest Rate Risk: The fund invests in a medium term portfolio of domestic government and corporate securities, exposing investors to the risk of loss arising from a rise in interest rates, which generally causes fixed income security prices to decline. Factors/ events that may lead to a rise interest rates include adverse market conditions, issuer-specific factors/ events and/ or negative developments in domestic political and economic conditions.

Liquidity Risk: Investors are exposed to the risk of loss due to the fund's inability to convert security holdings to cash immediately or in instances where conversion to cash is possible but at a highly disadvantageous price due to limited buyers/ sellers in the market, low trading volumes or market disruptions, among other reasons/ factors.

Credit/ Default Risk: Investors are exposed to the risk of loss due to the failure of the borrower/ debt issuer to make timely interest and/ or principal payments on its deposit liabilities, loans, bonds or other debt instruments due to a deterioration in the borrower's/ issuer's financial condition or external factors and events that may affect its ability to repay financial obligations such as negative developments in domestic political and economic conditions.

Related Party Risk: Investors are exposed to actual or potential conflicts of interest in the handling of related party transactions by the Trustee, specifically, time deposit placements with the Trustee's own bank and/ or its subsidiary, purchase of debt securities issued by related parties, as well as the execution of trade transactions with related counterparties.

In accordance with the provisions in the Declaration of Trust, the Fund employs a risk management policy based on duration. The Fund may also use financial derivatives to hedge the portfolio against market and credit risks.

Investments in the said outlets were approved by the BPI AMTC's Board of Directors. Likewise, all related party transactions are conducted on an arm's length

* Related party in accordance with BPI AMTC's internal policy.

OUTLOOK AND STRATEGY

Market Review. The BPI Government Bond Index returned -0.09 % in August, with benchmark government yields rising 8.53 basis points (bps) on average. The yield curve steepened, with rates on the long-end of the curve rising more than those of the belly or the short-end. Average daily trading volume rose to PHP22.20bn from July's PHP20.60bn with trades mostly seen on the belly (3 to 7-year papers) of the curve.

The Bureau of the Treasury (BTr) held four FXTN auctions (10-, 7-, 20 and 11-year tenors) and five Treasury Bill auctions in August. Demand was quite healthy for the first two FXTNs, while reception for the third was somewhat lukewarm, and the last (11-year reissuance of FXTN20-20) fully rejected with market bids seen as too high. There was 1 newly issued paper last month, the fully awarded 7-year FXTN7-65 (coupon of 3.750% with average yield of 3.674%). Meanwhile, average yields for the reissued FXTN10-66 and FXTN25-11 (reissued as a 20-year) were awarded at 3.914% and 4.986%, respectively. The rejected FXTN20-20 auction would have averaged at 4.533%, had the issue been fully awarded. Towards month-end, the BTr released its September auction schedule, announcing five weekly FXTN issuances (5-, twice 7-, and twice 10-year tenors) and five weekly T-bill auctions.

In the local economic space, July inflation continued to ease to 4.0% year-on-year, compared to June's 4.4% and lower than the median forecast. Though it declined, the figure marks another month that inflation has been higher than the Bangko Sentral ng Pilipinas' (BSP) target band of 2-4% for the year. The country's 2Q2021 GDP grew by 11.8% YoY, ending the recession mostly due to base effects. Growth was driven by industry and services, while the agricultural sector lagged. During its Monetary Board held August 12, the Bangko Sentral ng Pilipinas hiked its average inflation forecasts by 1% each year, to 4.1% in 2021 and 3.1% for 2022-2023. It stated however, that the rate of price increases has likely peaked as of earlier this year. BSP Governor Benjamin Diokno has continuously reiterated that the central bank would utilize its full arsenal of tools to support growth and stability.

Fund Performance. The Fund returned 0.06% for the month, below benchmark by 25 basis points.

Fund Strategy. The Fund looks to maintain a neutral duration position given expectations of accelerating local inflation amid recovering oil prices and dwindling base effects. Volatility may persist in the global space, and the portfolio will be actively managed to take advantage of this. Investors in a bond fund must be prepared to withstand volatility as higher investment value is typically achieved over the medium to long term.

LIST OF PROSPECTIVE INVESTMENTS

The following are among the Fund's approved investment outlets, wherein the Trustee intends to invest depending on strategy, availability, or other market-driven circumstances:

- a) Bank deposits and such other investments allowed under regulations issued by the BSP;
- b) Securities issued by or guaranteed by the Philippine government, or by the BSP;
- c) Tradable securities issued or guaranteed by multilateral institutions such as the Asian Development Bank (ADB), International Monetary Fund (IMF) and World Bank;
- d) Tradable securities issued by the government of a foreign country, any political subdivision of a foreign country or any supranational entity;
- e) Exchange-listed securities;
- f) Marketable instruments that are traded in an organized exchange;
- g) Loans traded in an organized market; and
- h) Such other tradable investments outlets/categories as may be approved by the relevant authority and allowed by the BSP.
