INVESTMENT OBJECTIVE AND STRATEGY

The Fund aims to achieve investment returns that closely track the total return of the iBoxx ABF Philippines index, before fees and expenses, by investing in a diversified portfolio of peso-denominated sovereign, quasi-sovereign, and supranational bonds.

CLIENT SUITABILITY

A client profiling process shall be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The ABF Philippines Bond Index Fund is for investors who:

- Are at least classified as moderately aggressive based on their risk profile.
- Have an investment horizon of at least five (5) years

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

Interest Rate Risk: The fund invests in domestic government- issued/ guaranteed securities comprising the iBoxx ABF Philippines Index, exposing investors to the risk of loss arising from a rise in interest rates, which generally causes fixed income security prices to decline. Factors/ events that may lead to a rise interest rates include adverse market conditions, and/ or negative developments in domestic political and economic conditions.

Liquidity Risk: Investors are exposed to the risk of loss due to the fund's inability to convert security holdings to cash immediately or in instances where conversion to cash is possible but at a highly disadvantageous price due to limited buyers/ sellers in the market, low trading volumes or market disruptions, among other reasons/ factors.

Related Party Risk: Investors are exposed to actual or potential conflicts of interest in the handling of related party transactions by the Trustee, specifically, the execution of trade transactions with related counterparties.

Down-grade Risk: Investors are exposed to the risk of loss arising from adverse changes in the prices of domestic government-issued/ guaranteed securities due to a downgrade in the credit rating of the Philippines.

Index Tracking Risk: Investors are exposed to the risk of not being able to achieve a level of return that matches the index being tracked by the fund due primarily to operating and fund management expenses.

The Fund's investment outlets undergo proper screening and evaluation in accordance with the Trustee's accreditation process. The Fund may also use financial derivatives to hedge the portfolio against market and credit risks.

Benchmark: iBoxx ABF Philippines Index

OUTLOOK AND STRATEGY

Market Review. The BPI Government Bond Index returned -1.29% in October, with benchmark government yields rising 45 basis points (bps) on average. Average daily trading volume fell to PHP7.04 billion from September's PHP11.22 billion with trades mostly seen on the short end (3- to 6-month papers) of the curve.

The Bureau of the Treasury (BTr) held four FXTN auctions in October. The new issuance of the 10-year FXTN 10-70 was fully awarded with a coupon rate of 7.500%, while the reissuance of the 13-year FXTN 25-7 was fully awarded at an average rate of 7.887%. However, the reissuance of the 3-year FXTN 7-61 and the 6-year FXTN 7-68 were both partially awarded at average yields of 5.746% and 7.000%, respectively. As market participants bid higher pricing in rate hike expectations, the BTr awarded some bids above the secondary market rates. Towards the end of the month, the BTr released the November auction schedule with four Treasury Bill auctions and four FXTN issuances (3-, 5-, 12-, and 20-year tenors), offering the first 20-year paper for the year.

In the local economic space, inflation for the month of September rose by 6.9% year-on-year, its highest level in four years. Prices for food, fuel, and utilities remained elevated as supply side pressures persisted. Given the persistent price pressures and the current pace of FED rate hikes, BSP Governor Felipe Medalla remained hawkish with a remark of a possibility of more than 100-bp hike in the last 2 policy meetings for the year.

Fund Performance. The Fund continued to track the returns and duration of the iBoxx ABF Philippines. The Fund returned -0.87% for the month, closely tracking the benchmark index.

Fund Strategy. The iBoxx index will see minimal changes for the month. The Fund will rebalance to reflect any changes to continue to closely track the duration of its benchmark.

LIST OF PROSPECTIVE INVESTMENTS

ABF Philippines Bond Index Fund may invest in the following:

- (a) Index securities consisting of peso-denominated debt obligations issued or guaranteed by the Philippine Government, by an agency or instrumentality of the Philippine Government, by a Philippine Government sponsored entity or quasi Philippine Government entity and peso-denominated debt obligations issued by supranational financial institution, or by an agency or instrumentality of any supranational financial institution or by an entity sponsored by any supranational financial institution, in each case as determined by the Index Licensor and which are for the time being constituent securities of the iBoxx ABF Philippines Index.
- (b) Non-index securities consisting of peso-denominated securities which are issued by an issuer of any Index Security and are similar to comparable Index Securities and are likely to behave in such a manner that is consistent with the Investment Objective.
- (c) Bank deposits and such other investments allowed under regulations issued by the BSP.
