OUTLOOK AND STRATEGY

Market Review. The Philippine Stock Exchange Index (PSEi) tumbled to end quarter number 1 as global markets took blows from the Russia-Ukraine conflict. The index dropped sharply, overshooting the 7,000 mark in early March, on fears of soaring commodity and oil prices. When the index reached the oversold area, bargain-hunting ensued and it leapt to close at 7,203.47 in March.

In terms of activity, the month of March was less active with Average Daily Turnover registering at US\$164 million or 12.8% lower month-on-month. On the foreign activity side, foreigners continued to be sellers with outflows at US\$205 million and with significant participation level at 48%. This brought the year-to-date figure at a net outflow of US\$120 million. A notable selling pressure came from FTSE rebalancing which saw the deletion of SM Investments (SM).

As for the individual stock performances, the top contributors for the month were CNVRG (+16.15%), ICT (+6.74%), and RLC (+6.7%). Meanwhile, the laggards for the month include MONDE (-17.07%), ALI (-10.13%) and LTG (-8.06%).

Fund Performance. The fund returned -0.59% in March, outperforming its benchmark by 88 basis points. Year-to-date, it outperformed the benchmark by 147 basis points with a return of 2.60%.

Fund Strategy. We look to stay on the sidelines as markets absorb the trembling effects (higher commodity and energy prices) of the Ukraine-Russia conflict. We maintain our defensive stance and take advantage of names primed to benefit from the ongoing dividend season. Moreover, we will remain nimble and be ready for any potential tactical opportunities.
