OUTLOOK AND STRATEGY

Market Review. European equities fell as markets grew more uncertain about the region's economic outlook amid concerns of a more hawkish monetary policy, continued supply chain disruptions, elevated inflation and limited energy supply. Economic data in the region remained robust despite headline inflation posting at a record of 7.5% year-on-year in April. The European Central Bank reiterated its hawkish stance but at a gradual pace on the back of weaker demand and greater exposure to the Russia-Ukraine conflict. In commodity markets, European gas prices surged as Russia cut gas supplies to Poland and Bulgaria. Energy prices are expected to remain elevated as the EU announced a ban on coal imports from Russia and formulated plans to ban Russian oil imports as part of their sanctions package.

Fund Performance. The fund returned -4.48% in April, outperforming the benchmark by 127 basis points.

Fund Strategy. We continue to see heightened volatility, higher energy and commodity prices, supply chain challenges and a further increase to inflationary pressure. The exact scale and duration of the war's impact on economic activity and inflation remains unclear, but it has and will further affect monetary and fiscal policy in Europe. We will continue to monitor the situation in Russia and Ukraine, and how sanctions on Russia could affect Europe's economic situation. The fund will continue to invest in companies with compelling structural growth, solid competitive positioning and attractive valuations, which can potentially lead to higher returns and help mitigate downside risk given the current market environment.

LIST OF PROSPECTIVE INVESTMENTS

The following are among the Fund's approved investment outlets, wherein the Trustee intends to invest depending on strategy, availability, or other market-driven circumstances:

The Target Fund must be recognized as a collective investment scheme in its home jurisdiction by a regulatory authority or any regulatory authority acceptable to the BSP to supervise this CIS. Such collective investment scheme must not have any investment exposure in other collective investment schemes.
