## OUTLOOK AND STRATEGY

**Market Review.** The Philippine Stock Exchange just experienced its largest monthly drop thus far in 2022 on a confluence of external and internal factors. Ongoing geopolitical tensions between Russia and Ukraine, US Federal Reserve well-anticipated rate-hike, rising commodity prices and China's lockdown to curb the rising COVID-19 cases, forced market investors to pull out on risky assets and stay on the sidelines. On the domestic front, the BSP hinted at raising policy rates if GDP grows around 6-7%. Moreover, all eyes on the 2022 national elections as new leaders will take the helm for the next 6 years. The local bell-weather index gave up 6.6% month-on-month to close at 6,731.25 in April.

We saw lackluster activity as Average Daily Turnover registered at US\$102.61 million in April or 37.4% lower in the prior month. On foreign flows, we saw another round of Net Outflows at US\$99 million. These were across the board which could have recorded at US\$154.8 if not for the AREIT overnight secondary share placement at US\$55.8 million inflows. Year-to-date, Net Foreign Outflows expanded to US\$219 million.

As for the individual stock performances, top contributors in April were EMP (+39.1%), WLCON (+3.7%) and TEL (+0.86%) while the laggards include ACEN (-17.30%), URC (-15.29%) and AEV (-14.96%).

**Fund Performance.** The Fund registered a loss of 6.44% in April, outperforming its benchmark by 12 bps. Meanwhile, the YTD performance of the Fund reported a loss of 3.41%, outperforming its benchmark by 208 bps.

**Fund Strategy.** We will stay on the sidelines pending a domestic rate hike, elevated global commodity prices and other financial shocks from Europe. Moreover, we continue to be nimble and ready for any tactical opportunities.
