OUTLOOK AND STRATEGY

Market Review. The BPI Government Bond Index returned 1.39% in July, with benchmark government yields falling 18 basis points (bps) on average. Average daily trading volume rose to PHP14.95bn from June's PHP8.35bn with trades mostly seen on the belly (5-year and 10-year papers) of the curve.

The Bureau of the Treasury (BTr) held four FXTN auctions and four Treasury Bill auctions in July. The re-issuance of the 4-year FXTN 7-62, 7-year FXTN 10-64, 10-year FXTN 10-68, and 14-year FXTN 25-8 were fully awarded at average rates of 5.908%, 6.76%, 6.865%, and 6.894%. Healthy participation was observed across all tenors. Towards the end of the month, the August auction schedule was released with four FXTN issuances (3.5-, 7-, 10-, and 5.5-year tenors) and five Treasury Bill auctions.

In the local economic space, June inflation rose by 6.1% year-on-year, the fastest pace since November 2018. This was on the back of rising food and fuel costs, as geopolitical tensions continue to keep oil prices elevated. Consequently, the BSP surprised markets, raising policy rates mid-month by 75 basis points to 3.25%. This was the largest single rate hike in history, and was also the first off-cycle move since the pandemic began in 2020. The central bank will continue to monitor economic data and adjust policy settings as needed.

Fund Performance. The Fund returned -0.26% for the month, above its benchmark by 9 basis point.

Fund Strategy. The Fund looks to maintain its underweight duration position given expectations of rising interest rates moving forward. It will likewise continue to hold high quality corporate bonds for yield enhancement. Though inflation has exceeded the government's target range, the BSP remains vigilant in monitoring supply side pressures and potential second-round effects. Volatility will persist in the global space, and the portfolio will be actively managed to take advantage of this. Investors in a bond fund must be prepared to withstand volatility as higher investment value is typically achieved over the medium to long term.
