*Billings received for 2018 divided by the average daily NAV

INVESTMENT OBJECTIVE AND STRATEGY

The objective of this Fund is to attain long-term capital growth for Peso investors. To achieve this, the Fund will be invested in a concentrated portfolio of stocks listed on the Philippine Stock Exchange. The Fund seeks to outperform the Philippine Stock Exchange Index (PSEi).

CLIENT SUITABILITY

A client profiling process shall be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The Odyssey Philippine Equity Fund is suitable only for investors who:

- Are at least classified as aggressive based on their risk profile
- Have an investment horizon of at least five (5) years

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

Equity Price Risk: The Fund invests in a concentrated portfolio of stocks listed in the Philippine Stock Exchange, exposing investors to potentially larger losses from a decline in stock prices, compared to funds tracking the index or employing a value style bias/ strategy. Decline in stock prices may be brought about by adverse stock market conditions, unfavorable company earnings and valuations and/ or negative developments in domestic and global political and economic conditions.

Liquidity Risk: Investors are exposed to the risk of loss due to the Fund's inability to convert equity holdings to cash immediately or in instances where conversion to cash is possible but at a highly disadvantageous price due to limited buyers/ sellers in the market, low trading volumes or market disruptions, among other reasons/ factors.

Related Party Risk: Investors are exposed to actual or potential conflicts of interest in the handling of related party transactions by the Trustee, specifically, time deposit placements with the Trustee's own bank and/ or its subsidiary, purchase of equity securities issued by related parties, as well as the execution of trade transactions with related counterparties.

The Fund's investment outlets undergo proper screening and evaluation in accordance with the Trustee's accreditation process and minimum regulatory requirements. Regulatory exposure limits and asset allocation ranges as provided in the Fund's Plan Rules are strictly adhered to and monitored on a regular basis. The Fund may also use financial derivatives to hedge the portfolio against market and credit risks.

*Related party in accordance with BPI' AMTCs internal policy.

OUTLOOK AND STRATEGY

Market Review. The Philippine Stock Exchange (PSEi) came out with a strong performance in August, rising by 4.2% month-on-month (MoM). The rally was propelled by impressive 2Q earnings reports which reflected the strength of the country's economic reopening story. The US Inflation for July came out lower-than-expected at 8.5% likewise lifted sentiment. Meanwhile, the Philippines 2Q GDP came out at 7.4% year-on-year (YoY), lower than prior period's 8.2% YoY. The Bangko Sentral ng Pilipinas (BSP) raised its key benchmark rate by 50 basis points to 3.75% following strong 2Q GDP and PH inflation at 6.4%. The local bourse rose by as much as 8.68% before it succumbed to profit-taking towards the latter part of the month. A quarterly rebalancing from MSCI further amplified the selling pressure with roughly US\$10 million worth of outflows for the Philippines. The PSEi closed at 6,583.65.

Trading volume ramped up in August boosted by the MSCI quarterly rebalancing. The Average Daily Turnover registered at US\$ 138 mil or 53.3% higher compared to July. Meanwhile, foreign selling continued for the 6th straight month at US\$152 mil. Despite the large foreign outflow, there was a 5-days net foreign buying streak at roughly US\$58 mil. Foreign participation stretched to 45% from 41%.

In terms of individual stock performances, top contributors for the month were: JFC (+19.09%), MONDE (+15.87%) and ALI (+13.47%) while the laggards include MER (-11.41%), ACEN (-10.39%) and SMC (-9.43%).

Fund Performance. The fund returned 4.49% in August, outperforming the benchmark by 25 bps. Year-to-date, it outperformed the benchmark by 178 basis points with a return of -5.79%.

Fund Strategy. The Fund will continue to be defensive given the elevated volatility from the usual risks - high inflation & interest rate and local currency depreciation, augmented by low volume trading. The fund will look to trim on stocks that have already priced-in the recovery story and accumulate on emerging value in select sectors.

LIST OF PROSPECTIVE INVESTMENTS

The following are among the Fund's approved investment outlets, wherein the Trustee intends to invest depending on strategy, availability, or other market-driven circumstances:

- a) Common shares, preferred shares, and convertible preferred shares listed on the Philippine Stock Exchange;
- b) Shares offered in an Initial Public Offering (IPO), provided that the company will be listed on the Philippine Stock Exchange within the normal listing period (approximately 30 days from the start of the offer period);
- c) Bank Deposits;
- d) Primarily short term securities issued by or guaranteed by the Philippine government, or by the BSP;
- e) Primarily short term tradable securities issued or guaranteed by multilateral institutions such as the Asian Development Bank (ADB), International Monetary Fund (IMF), and World Bank;
- f) Primarily short term exchange-listed securities;
- g) Primarily short term marketable instruments that are traded in an organized exchange;
- h) Primarily short term loans traded in an organized market; and
- i) Such other tradable investments outlets/categories as may be approved by the relevant authority and allowed by the BSP.
