OUTLOOK AND STRATEGY

Market Review. Global equity markets rose in March. The failures of US regional banks and the acquisition of Credit Suisse dampened investor sentiment and prompted fears of contagion across global markets. Central banks swiftly took action and provided support and liquidity to troubled banks. Investor concerns eased and equity markets recovered towards the latter part of the month. Despite a volatile backdrop amid the events in the banking sector, global central banks continued with their aggressive monetary policies as labor markets remained robust and inflation is still above target. The US Federal Reserve and the European Central Bank raised interest rates by 25 and 50 basis points, respectively.

Fund Performance. The fund increased by 0.78% in March, lagging its benchmark by 23 basis points. On a year-to-date basis, the fund gained 4.04%, outperforming the benchmark by 22 basis points.

Fund Strategy. The fund manager will continue to invest in equities of medium to large capitalization companies while integrating Catholic social teachings into the investment process.
