OUTLOOK AND STRATEGY

Market Review. The BPI Government Bond Index returned -0.47% in February, with benchmark government yields rising 21 basis points (bps) on average. Average daily trading volume fell to PHP11.91 billion from January's PHP17.55 billion with trades mostly seen on the long-end of the curve.

The Bureau of the Treasury (BTr) only held two FXTN auctions in February. The 13-year FXTN 25-7 and 10-year FXTN 10-69 were fully awarded at average yields of 6.197% and 6.258%, respectively. Two FXTN auctions were cancelled after the BTr announced its first Retail Treasury Bond (RTB) issuance for the year. The government priced the 5.5-year RTB (RTB5-17) at a coupon rate of 6.125% and raised Php283.71 billion from the sale. Towards the end of the month, the BTr released its March auction schedule with five Treasury Bill auctions and five FXTN issuances (6-, 10-, 13-, 20-, and 7-year tenors).

In the local space, January inflation exceeded expectations printing 8.7% year-on-year, the highest since November 2008. The inflation uptrend was mainly driven by housing, electricity, water, fuel, and food-related expenses. Consequently, the Bangko Sentral ng Pilipinas (BSP) hiked its policy rate by 50 basis points to 6.00% during the first Monetary Board meeting of the year, to curb demand and limit inflation. The central bank raised its 2023 inflation forecast to 6.1% but maintained its 2024 forecast at 3.1%.

Fund Performance. The Fund returned -0.04% for the month, above its benchmark by 5 basis points.

Fund Strategy. The Fund looks to gradually add to its duration position as interest rates are expected to stabilize in the near term. Inflation remains above the government's target range, and the BSP will be vigilant in monitoring supply side pressures moving forward. Volatility may persist in the global space, and the portfolio will be actively managed to take advantage of this. Investors in a bond fund must be prepared to withstand volatility as higher investment value is typically achieved over the medium to long term.
