Market Review. The JP Morgan Asia Credit Index (JACI) Philippines returned 1.50% in April as Philippine dollardenominated bonds outperformed US Treasuries.

Global bond movements were mixed in April amid mostly strong economic data releases and a US headline inflation figure that showed price pressures easing further. The CPI of the world's largest economy printed at 5.0% YoY in March, lower than the market estimate and the previous month's 6.0% figure. Meanwhile, the labor market showed some signs of cooling as wage growth slowed to 4.2% year-on-year. Investors continued to closely monitor these indicators as they speculated on what the Federal Reserve's policy rate decisions would be come early May. On the other side of the world, the Chinese economy posted a positive surprise, growing 4.5% YoY. Growth was driven by an improvement in consumer spending as the country's reopening was well underway. For the month, the 10-year US Treasury yield slipped 5 basis points lower to close the month at 3.42%.

In the local economic space, inflation for the month of March settled at 7.6% year-on-year, lower than the 8.6% in February. The figure was lower than market expectations, and was brought about by receding supply-side pressures. BSP officials reiterated that they remained prepared to adjust policy settings as needed, adding that easing inflation would give them more flexibility moving forward.

Fund Performance. The Fund returned 0.31% in April, 6 basis points below its benchmark.

Fund Strategy. The Fund will maintain its duration of less than 1. Expectations of rising rates moving forward may provide an opportunity for better yielding investment outlets.

LIST OF PROSPECTIVE INVESTMENTS

The following are among the Fund's approved investment outlets, wherein the Trustee intends to invest depending on strategy, availability, or other market-driven circumstances:

- (a) Primarily short-term tradable fixed-income instruments issued or guaranteed by the Philippine government or the BSP; tradable securities issued by the government of a foreign country, any political subdivision/agency of a foreign country or any supranational entity; tradable fixed-income instruments issued by foreign or local financial institutions or private corporations; exchange-listed securities; marketable instruments that are traded in an organized exchange; loans traded in an organized market; and, such other tradable investments outlets/ categories as the BSP may allow. Provided, that, a financial instrument is regarded as tradable if two-way prices are quoted, readily available or regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.
- (b) Primarily short-term tradable fixed-income instruments issued, underwritten, or otherwise dealt by BPI and/or any of its subsidiaries, affiliates, their successors-in-interest or assignees, their directors, officers, stockholders, and related interest, and any of their trust and fund managed accounts, under such terms and conditions as the Trustee may deem to be in the best interest of the Fund; and, any such other instruments as may be allowed under BSP regulations. Investment with related interests shall be in accordance with Subsection X410.12 (a) of the Manual of Regulations for Banks.
- (c) The principal investments of the Fund will be in money market instruments denominated in, but are not limited to, the following major currencies: U.S. Dollar, Euro, British Pound, Canadian Dollar, Australian Dollar, Swiss Franc, Danish Kroner, and Japanese Yen.
- (d) Bank deposits, BSP special deposit account or tradable debt instruments issued by the BSP.
- (e) Such other investments allowed under regulations issued by the BSP.
