OUTLOOK AND STRATEGY

Market Review. The BPI Government Bond Index returned 3.22% in November as the local yield curve bull steepened, dropping 69 basis points (bps) on average. Average daily trading volume for the month amounted to PHP29.54 billion significantly higher than October's PHP10.15 billion with trades mostly seen on the long end of the curve.

The Bureau of the Treasury (BTr) held five FXTN auctions in November. The first issuance, 5-year FXTN 10-64, was fully rejected by the BTr. Had the BTR fully awarded the paper, average yields would have risen to 7.196%. The 7-year FXTN 7-70 and 10-year FXTN 10-71 re-issuances were fully awarded at average yields of 6.807% and 6.781%, respectively. The last two issuances of the month, 15-year FXTN 20-23 and 6-year FXTN 7-68, had decreased offer sizes of PHP20 billion each and were fully awarded at average yields of 6.593% and 6.099%, respectively. Towards the end of the month, the BTr released the December auction schedule with two Treasury Bill auctions and two FXTN issuances (10- and 15-year tenors) with an offer size of PHP20 billion each.

In the local space, October headline inflation dropped to 4.9% year-on-year from the 6.1% print in September. The slowdown in inflation was mainly driven by lower food inflation with rice prices decreasing following peak harvest season and import arrivals. The third quarter GDP print came out at 5.9% year-on-year, exceeding market expectations of 4.7%. Coming from a contraction in the previous quarter, the economy rebounded given the 6.7% rise in government spending. Consequently, the Bangko Sentral ng Pilipinas (BSP) held its key policy rate at 6.5% during its November Monetary board meeting after delivering an off-cycle rate hike in the previous month. The central bank perceives the current policy settings to be appropriate until inflation move towards the target range. The BSP lowered its forecast for FY 2024 inflation to 4.4% from the previous 4.4% and 2025 to 3.4% from 3.5%. The central bank noted that growth outlook remains intact, and they remain ready to tighten further if needed.

Fund Performance. The Fund returned 1.77% for the month, underperforming the benchmark by 54 bps in November.

Fund Strategy. The Fund will continue to invest in a diversified mix of securities primarily issued by Philippine corporations.
