OUTLOOK AND STRATEGY

Market Review. The BPI Government Bond Index returned 3.51% in January, with benchmark government yields falling 70 basis points (bps) on average. Average daily trading volume rose to PHP17.55 billion from December's PHP9.65 billion with trades mostly seen on the belly of the curve.

The Bureau of the Treasury (BTr) held four FXTN auctions in January. The first reissuance of the year, 7-year FXTN 7-68 was fully awarded at an average yield of 6.796%. The 13-year FXTN 25-8 was fully awarded at an average yield of 7.182% with a high bid-to-cover ratio of 5.29x. Yields in the belly and long end of the curve dropped following the strong auction participation. Consequently, the reissuances of the 20-year FXTN 20-25 and 10-year FXTN 10-69 were fully awarded at average yields of 6.525% and 5.913%, respectively. Towards the end of the month, the BTr released the February auction schedule with four Treasury Bill auctions and four FXTN issuances (13-, 5-, 3- and 10-year tenors).

Local inflation for the month of December rose by 8.1% year-on-year, higher than last month's 8.0%. This marked the highest year-on-year change since 2008, as food and fuel prices were affected by supply-side pressures and elevated holiday spending. The local economy expanded by 7.2% in the fourth quarter of 2022, boosted by consumption despite the highest inflation rate in 14 years. For the full year of 2022, GDP expanded by 7.6%. Central bank officials continued to reiterate that they remained prepared to adjust policy settings as needed, given persistently high CPI levels, as well as central bank tightening measures globally.

Fund Performance. The Fund returned 2.78% for the month, above the benchmark by 155 bps in January.

Fund Strategy. The Fund will continue to invest in a diversified mix of securities primarily issued by Philippine corporations.
