OUTLOOK AND STRATEGY

Market Review. The local equities market rebounded by the end of September to close the month in positive territory. Early to middle of the month, weakness was experienced as the index dipped to an intraday low of 5,998 amid FTSE's rebalancing movements. Sentiment was further dampened as headline inflation accelerated to 5.3% in August 2023 (vs 4.7% in July). However, losses were fully recouped by the end of September as investors deployed proceeds from the tender offer of Metro Pacific, Inc. and bottom-fishing of bombed out names with deep value. Overall, the PSEi went up by 2.4% MoM closing at 6,321.24 in September.

Trading activity during the month further improved as changes in FTSE and PSEi constituents triggered portfolio rebalancing. Average Daily Turnover came in at Php6.58 billion from Php5.21 billion in August, albeit foreigners continued to be net sellers at US\$179 million.

For stock performances, the top three gainers for the month were as follows: MONDE (+25.42%), CNVRG (+23.55%) and SCC (+9.06%). Meanwhile, the bottom three index performers included: BLOOM (-8.68%), UBP (-6.52%) and JFC (-3.21%).

Fund Performance. The fund outperformed its benchmark by 101 basis points in September with a return of 3.37%.

Fund Strategy. The Fund will maintain its defensive stance amidst the persisting high inflationary environment. This, along with elevated interest rate will continue to pull down market sentiment. The fund will be nimble in maximizing market swings to rebalance in favour of high-quality names.
