## OUTLOOK AND STRATEGY

**Market Review:** The BPI Government Bond Index returned 0.57% in April as the benchmark government yield curve flattened with the short-end of the curve rising and the long-end falling. Average daily trading volume rose to PHP15.42 billion from March's PHP14.83 billion with trades mostly seen on the long-end of the curve.

The Bureau of the Treasury (BTr) held four FXTN auctions in April. The 3-year FXTN 7-62, 9-year FXTN 10-69, and 7-year FXTN 7-69 re-issuances were all fully awarded at average yields of 5.883%, 6.142%, and 6.012%, respectively. The first 13-year FXTN 13-1 primary issuance was partially awarded at a coupon rate of 6.250%. Towards the end of the month, the BTr released the May auction schedule with five Treasury Bill auctions and four FXTN issuances (6-, 9-, 13-, and 7-year tenors) each with an offer size of PHP25 billion.

In the local space, March inflation fell to a six-month low at 7.6% year-on-year, lower than the 8.6% in February. The decline in the March figure can be attributed to slower food, transport, and utility inflation. Despite easing headline inflation, second-round effects have driven higher price pressures for restaurants and personal services, pushing the core inflation to 8.0%. BSP officials reiterated that they remained prepared to adjust policy settings as needed, adding that easing inflation would give them more flexibility moving forward.

**Fund Performance:** The Fund returned 0.78% during the month, above its benchmark by 21 basis points.

**Fund Strategy:** The Fund looks to gradually add to its duration position as interest rates are expected to stabilize in the near term. Inflation remains above the government's target range, and the BSP will be vigilant in monitoring supply side pressures moving forward. Volatility may persist in the global space, and the portfolio will be actively managed to take advantage of this. Investors in a bond fund must be prepared to withstand volatility as higher investment value is typically achieved over the medium to long term.
