## OUTLOOK AND STRATEGY

**Market Review.** The BPI Money Market Index returned 0.65% in November, as benchmark short-term government yields dropped by 72 basis points (bps) on average. Average daily trading volume for the month amounted to PHP29.54 billion significantly higher than October's PHP10.15 billion with trades mostly seen on the long end of the curve.

The Bureau of the Treasury (BTr) held four Treasury Bill auctions in November. During the last T-Bill auction for the month, the 91-, 182-, and 364-day paper were partially awarded with average yields of 4.753%, 5.181%, and 5.727%, respectively. The BSP increased its weekly offering of BSP Bills to PHP40 billion for the 56-day paper and PHP100 billion for the 28-day paper by the end of the month. Over the course of November, a total of Php574 billion worth of 28- and 56-day BSP Bills were issued at weighted average yields of 6.830% and 6.851%, respectively. Towards the end of the month, the BTr released the December auction schedule with two Treasury Bill auctions and two FXTN issuances (10- and 15-year tenors) with an offer size of PHP20 billion each.

In the local space, October headline inflation dropped to 4.9% year-on-year from the 6.1% print in September. The slowdown in inflation was mainly driven by lower food inflation with rice prices decreasing following peak harvest season and import arrivals. The third quarter GDP print came out at 5.9% year-on-year, exceeding market expectations of 4.7%. Coming from a contraction in the previous quarter, the economy rebounded given the 6.7% rise in government spending. Consequently, the Bangko Sentral ng Pilipinas (BSP) held its key policy rate at 6.5% during its November Monetary board meeting after delivering an off-cycle rate hike in the previous month. The central bank perceives the current policy settings to be appropriate until inflation move towards the target range. The BSP lowered its forecast for FY 2024 inflation to 4.4% from the previous 4.4% and 2025 to 3.4% from 3.5%. The central bank noted that growth outlook remains intact, and they remain ready to tighten further if needed.

**Fund Performance.** The Fund returned 0.81% during the month of November, outperforming its benchmark by 42 basis points.

**Fund Strategy.** The Fund continues to maintain its holdings in short duration government securities. Expectations of rising rates moving forward may provide an opportunity for better yielding investment outlets.
