Local inflation for the month of December rose by 8.1% year-on-year, higher than last month's 8.0%. This marked the highest year-on-year change since 2008, as food and fuel prices were affected by supply-side pressures and elevated holiday spending. The local economy expanded by 7.2% in the fourth quarter of 2022, boosted by consumption despite the highest inflation rate in 14 years. For the full year of 2022, GDP expanded by 7.6%. Central bank officials continued to reiterate that they remained prepared to adjust policy settings as needed, given persistently high CPI levels, as well as central bank tightening measures globally.

Fund Performance. The Fund returned 0.85% during the month, above its benchmark by 54 basis points.

Fund Strategy. The Fund continues to maintain its holdings in short duration government securities. Expectations of rising rates moving forward may provide an opportunity for better yielding investment outlets.
