## OUTLOOK AND STRATEGY

**Market Review.** The BPI Government Bond Index returned -1.33% in October as the local yield curve bear steepened, rising 45 basis points (bps) on average. Average daily trading volume for the month amounted to PHP10.15 billion lower than September's PHP18.22 billion with trades mostly seen on the short-end of the curve.

The Bureau of the Treasury (BTr) held only three FXTN auctions in October. The 5-year FXTN 10-64, 7-year FXTN 7-70, and 10-year FXTN 10-71 re-issuances were fully awarded at average yields of 6.512%, 6.675%, and 6.954%, respectively. Towards the end of the month, the BTr released the November auction schedule with five Treasury Bill auctions and five FXTN issuances (5-, 7-, 10-, 15-, and 6-year tenors) with an offer size of PHP30 billion each.

In the local space, September headline inflation rose by 6.1% year-on-year, exceeding market expectations of 5.7%. Coming from last month's 5.3%, inflation continued to accelerate as food and energy prices jumped with rice prices surging 17.9% year-on-year. Consequently, the Bangko Sentral ng Pilipinas (BSP) delivered an off-cycle rate hike, raising its key policy rate by 25 basis points in an effort to subdue the persistent price pressures. The BSP's FY2024 inflation forecast was raised to 4.7% from the previous 4.3%. With regard to the upcoming November Monetary Board meeting, the central bank noted that it would remain data dependent in considering the future path of policy rates.

**Fund Performance.** The Fund posted a return of -1.56% for the month of October, underperforming its benchmark by 23 bps. Meanwhile, the YTD performance of the Fund reported a gain of 2.79%, underperforming its benchmark by 73 bps.

**Fund Strategy.** The Fund looks to maintain its current duration position as interest rates are expected to stabilize over the medium term. Inflation remains above the government's target range, and the BSP will be vigilant in monitoring supply side pressures moving forward. Volatility may persist in the global space, and the portfolio will be actively managed to take advantage of this. Investors in a bond fund must be prepared to withstand volatility as higher investment value is typically achieved over the medium to long term.
