OUTLOOK AND STRATEGY

Market Review. The BPI Government Bond Index returned 0.50% in August as the belly of the curve dropped while the short end of the curve went up. The average daily trading volume for the month amounted to PHP16.82 billion similar to July's PHP16.94 billion with trades mostly seen on the short end of the curve.

The Bureau of the Treasury (BTr) held five FXTN auctions in August. A new 10-year paper issuance, FXTN 10-71, was fully awarded at a coupon rate of 6.625%. The 5-year FXTN 10-63 and 6-year FXTN 7-68 re-issuances were partially awarded at average yields of 6.337% and 6.468% while the 5-year FXTN 10-64 re-issuance was fully awarded at an average yield of 6.220%. The 15-year FXTN 20-23 re-issuance was the first auction rejected for the year. Had the BTr fully awarded the paper, average yields would have risen to 6.927%. Towards the end of the month, the BTr released the September auction schedule with four Treasury Bill auctions and four PHP30 billion FXTN issuances (3-, 7-, 10-, and 3-year tenors).

In the local space, July headline inflation eased further to 4.7% year-on-year, from last month's 5.4%. The food, utilities, and transport prices drove the inflation lower marking six straight months of deceleration. The Philippine economy grew weaker than expected at 4.3% in the second quarter of the year, compared to the market expectation of 6%. Growth momentum was at its slowest pace since 2011 due to above-target inflation, elevated borrowing costs, and government underspending. The Bangko Sentral ng Pilipinas (BSP) kept its policy rate at 6.25% for the third time. BSP Governor Eli Remolona reiterated that they remain data-dependent but ready to hike policy rates if necessary. The BSP revised its inflation forecast upward, settling at 5.6% (from 5.4%) for 2023 and 3.3% (from 2.9%) for 2024 due to developments in global energy and food prices.

Fund Performance. The Fund returned 0.52% for the month, below its benchmark by 8 basis points.

Fund Strategy. The Fund looks to gradually add to its duration position as interest rates are expected to stabilize in the near term. Inflation remains above the government's target range, and the BSP will be vigilant in monitoring supply side pressures moving forward. Volatility may persist in the global space, and the portfolio will be actively managed to take advantage of this. Investors in a bond fund must be prepared to withstand volatility as higher investment value is typically achieved over the medium to long term.
