OUTLOOK AND STRATEGY

Market Review. Global equities posted positive returns in August with the MSCI All Country World Index returning 2.6%. In the US, the S&P 500 declined as much as 7.0% at the beginning of the month amid weak economic data as July non-farm posted 114,000 jobs, significantly below the expected 175,000 jobs, and the unemployment rate rose to 4.3%. Later in the month, more reassuring data helped the market rebound as retail sales rose above expectations, and the S&P 500 ended the month up by 2.4%. In terms of monetary policy, Federal Reserve Chair Jerome Powell signaled in the Jackson Hole meeting that a rate cut in September will be likely as inflation has continued to trend down to the central bank's 2.0% target. Outside of the US, the MSCI Europe Index returned 1.5%. Annual inflation fell from 2.9% in June to 2.1% in July, increasing the likelihood of another rate cut during the European Central Bank's September meeting. The Eurozone Composite and Services PMI remained in expansionary territory after the 2024 Olympic Games boosted business activity. Japanese equities experienced volatility in August after a sharp appreciation of the Yen versus the dollar triggered the unwinding of the Yen carry trade. This led to the largest decline in 37 years before rebounding the next trading day and the TOPIX ended the month at -2.9%. The Japanese economy continues to grow supported by domestic demand as GDP growth grew by 0.8% in the second quarter. Emerging market equities posted positive returns with the MSCI Emerging Market Index returning 1.6% for the month as the US dollar weakened from Federal Reserve Chair Powell's dovish sentiment.

Fund Performance. The fund returned -1.81% in August, behind the benchmark by 25 bps. On a year-to-date basis, the fund gained 19.47%, above the benchmark by 326 basis points.

Fund Strategy. The fund manager will continue to invest in equities of medium to large capitalization companies while integrating Catholic social teachings into the investment process.
