OUTLOOK AND STRATEGY

Market Review. The BPI Money Market Index returned 0.43% in March, while short-term government yields ended the month mixed. Average daily trading volume for the month amounted to Php19.73 billion, higher than February's Php16.78 billion with trades mostly seen on the belly of the curve.

The Bureau of the Treasury (BTr) held four Treasury Bill auctions in March. During the last T-Bill auction of the month, the 91-day, 182-day, and 364-day papers were fully awarded at average yields of 5.710%, 5.880%, and 5.982%, respectively. The average weekly offering of BSP Bills for March rose to Php117.5 billion and Php50 billion for the 28-day and 56-day paper, respectively. Over the course of March, a total of Php593 billion worth of 28- and 56-day BSP Bills were issued at weighted average yields of 6.729% and 6.715%, respectively. Towards the end of the month, the BTr announced the borrowing schedule for the second quarter of 2024, with weekly Treasury Bill auctions and monthly FXTN issuances (7-, 10-, 15- and 20-year tenors) and an additional 3-year issuance in May with an offer size of PHP30 billion each.

In the local space, February headline inflation rose by 3.4% year-on-year from previous month's 2.8%. The four straight months of inflation slowdown ended after rice prices rose 23.7% year-on-year due to tight supply and high world prices. BSP Governor Eli Remolona mentioned that while it's too soon to ease policy rates, it is unlikely to tighten more. The policymakers remain ready to adjust the rate settings to maintain price stability.

Fund Performance. The Fund returned 0.79% during the month of March, outperforming its benchmark by 46 basis points.

Fund Strategy. The Fund favors the safety of shorter-dated securities and time deposits. Expectations of interest rates staying elevated may help maintain current portfolio yield.
