## OUTLOOK AND STRATEGY

**Market Review.** The Philippine Stock Exchange Index (PSEi) got off to a hot start in 2024. The early-year optimism, fueled by the prospects of potential rate cuts, has propelled risk assets to gain traction. Further bolstering this is the encouraging local macroeconomic data, which has boosted investor sentiment. Notably, December inflation data came in lower at 3.9% from November's 4.1% and below consensus estimates of 4.0%. In addition to that, 4Q2023 Philippine GDP growth was recorded at 5.6%, exceeding market expectations of 5.2%.

Against this backdrop, the PSEi concluded January at 6,646.44, marking a 3.04% month-on-month return.

Trading activity surged, with the average daily turnover registering at US\$104 mil or 16.6% month-on-month. Foreign investors opened the year as net buyers at positive US\$80 million in January with observable preference for big cap liquid names primarily holding firms and banks.

In terms of stock performance, the top three gainers for the month include: BLOOM (+13.62%), GTCAP (+12.80%) and MBT (+11.31%). Meanwhile, the bottom three performers were: NIKL (-11.68%), MER (-9.27%) and URC (-5.67%).

**Fund Performance.** The Fund returned 2.42% in January, below its benchmark by 62 bps.

**Fund Strategy.** The Fund will continue to be defensive as volatility could persist given thin market liquidity and as interest rates remain elevated. The Fund will focus on companies with leading market capitalization.
