¹Returns are net of fees.

²Since inception.

³Measures the degree to which the Fund fluctuates vis-àvis its average return over a period of time. ⁴Used to characterize how well the return of a Fund compensates the investor for the level of risk taken. The higher the number, the better.

⁵Measures reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk.

⁶Includes accrued income, investment securities purchased, accrued expenses, etc.

*Declaration of Trust is available upon request through branch of account.

RELATED PARTY TRANSACTIONS

The Fund has investments and trade transactions with BPI Wealth – A Trust Corporation (BPI Wealth), its subsidiaries and related parties:

Ayala Corp.– Php 88.79 Million, Ayala Land Inc.– Php 109.86 Million, Bank of the Philippine Islands– Php 225.36 Million, ACEN Corporation– Php 24.37 Million

Investments in the said outlets were approved by the BPI Wealth's Board of Directors. Likewise, all related party transactions are conducted on an arm's length and best execution basis and within established limits.

*Related party in accordance with BPI Wealth's internal policy.

OUTLOOK AND STRATEGY

Market Review. The BPI Government Bond Index returned 0.51% in March as the local yield curve fell 2 basis points (bps) on average. Average daily trading volume for the month amounted to Php19.73 billion, higher than February's Php16.78 billion with trades mostly seen on the belly of the curve.

The Bureau of the Treasury (BTr) held four FXTN auctions in March. The 7-year FXTN 07-71, 10-year FXTN 10-72, 20-year FXTN 20-26, and 6year FXTN 07-70 reissuances were all fully awarded at average yields of 6.270%, 6.227%, 6.189% and 6.237%, respectively. Towards the end of the month, the BTr announced the borrowing schedule for the second quarter of 2024, with weekly Treasury Bill auctions and monthly FXTN issuances (7-, 10-, 15- and 20-year tenors) and an additional 3-year issuance in May with an offer size of PHP30 billion each.

In the local space, February headline inflation rose by 3.4% year-on-year from previous month's 2.8%. The four straight months of inflation slowdown ended after rice prices rose 23.7% year-on-year due to tight supply and high world prices. BSP Governor Eli Remolona mentioned that while it's too soon to ease policy rates, it is unlikely to tighten more. The policymakers remain ready to adjust the rate settings to maintain price stability.

Fund Performance. The Fund rose by 0.31% for the month, 19 basis points below its benchmark.

Fund Strategy. The Fund looks to maintain its current duration position as interest rates are expected to stabilize over the medium term. It will likewise continue to hold high quality corporate bonds for yield enhancement. While inflation has settled within the BSP's target in the past months, upside risks are still present. The BSP remains vigilant in monitoring supply side pressures and potential second-round effects. The central bank signalled that it is waiting for inflation rates to fall comfortably within the 2-4% target before cutting policy rates. Volatility may persist in the global space, and the portfolio will be actively managed to take advantage of this. Investors in a bond fund must be prepared to withstand volatility as higher investment value is typically achieved over the medium to long term.

LIST OF PROSPECTIVE INVESTMENTS

The following are among the Fund's approved investment outlets, wherein the Trustee intends to invest depending on strategy, availability, or other market-driven circumstances:

- a) Primarily medium-term tradable fixed-income instruments issued or guaranteed by the Philippine government or the BSP; tradable fixed-income securities issued by the government of a foreign country, any political subdivision/agency of a foreign country or any supranational entity; tradable fixed-income instruments issued by foreign or local financial institutions or private corporations; exchange-listed securities; marketable instruments that are traded in an organized exchange; loans traded in an organized market; and, such other tradable investments outlets/ categories as the BSP may allow. Provided, that, a financial instrument is regarded as tradable if two-way prices are quoted, readily available or regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.
- b) Primarily medium-term tradable fixed-income instruments issued, underwritten, or otherwise dealt by BPI and/or any of its subsidiaries, affiliates, their successors-in-interest or assignees, their directors, officers, stockholders, and related interest, and any of their trust and fund managed accounts, under such terms and conditions as the Trustee may deem to be in the best interest of the Fund; and, any such other instruments as may be allowed under BSP regulations. Investment with related interests shall be in accordance with Subsection X 410.12 (a) of the Manual of Regulations for Banks.
- c) Bank deposits, BSP special deposit account or tradable debt instruments issued by the BSP.
- d) Such other investments allowed under regulations issued by the BSP.
