## KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

<b>Equity Price Risk:</b>	The Fund invests in a concentrated portfolio of stocks listed in the Philippine Stock Exchange, exposing investors to potentially larger losses from a decline in stock prices, compared to funds tracking the index or employing a value style bias/ strategy. Decline in stock prices may be brought about by adverse stock market conditions, unfavorable company earnings and valuations and/ or negative developments in domestic and global political and economic conditions.
<b>Liquidity Risk:</b>	Investors are exposed to the risk of loss due to the Fund's inability to convert equity holdings to cash immediately or in instances where conversion to cash is possible but at a highly disadvantageous price due to limited buyers/ sellers in the market, low trading volumes or market disruptions, among other reasons/ factors.
<b>Related Party Risk:</b>	Investors are exposed to actual or potential conflicts of interest in the handling of related party transactions by the Trustee, specifically, time deposit placements with the Trustee's own bank and/ or its subsidiary, purchase of equity securities issued by related parties, as well as the execution of trade transactions with related counterparties.

The Fund's investment outlets undergo proper screening and evaluation in accordance with the Trustee's accreditation process and minimum regulatory requirements. Regulatory exposure limits and asset allocation ranges as provided in the Fund's Plan Rules are strictly adhered to and monitored on a regular basis. The Fund may also use financial derivatives to hedge the portfolio against market and credit risks.

## OUTLOOK AND STRATEGY

**Market Review.** The Philippine Stock Exchange Index (PSEi) dropped for the third straight month on another round foreign selling as investors anticipate US President-Elect Donald Trump's resumption to power. This comes with his expected tariffs which reverberated throughout the global economy and forced investors to adopt a risk-off stance. The PSEi fell by 1.3% month-on-month to close at 6,528.79. Despite the monthly decline, the local bourse ended up positive on a year-on-year basis at +1.22%, which bucked the trend of the 4-year decline.

The Average Daily Turnover declined by 8.5% to Php4.83 billion on shortened trading days due to Holiday season. Meanwhile, foreign selling persisted for another month, registering at US\$104 million which has now stretched the full year 2024 net foreign outflow to US\$408 million. Their top sold stocks were ALI (-US\$ 37.4 million), BPI (-US\$20.3 million) and BDO (-US\$14.50 million). Foreign participation recorded at 50%, an even split with locals.

On a per stock basis, the top three index gainers for the month include: NIKL (+17.51%), WLCON (+10.00%) and SCC (+8.72%). Meanwhile, the bottom three performers include: BLOOM (-16.42%), ALI (-8.39%) and MONDE (-7.13%).

**Fund Performance.** The Fund registered a loss of -1.46% in December, underperforming its benchmark by 17 bps. Meanwhile, the YTD performance of the Fund reported a gain of 0.49%, underperforming its benchmark by 73 bps.

**Fund Strategy.** The Fund will accumulate on market dips as volatility from the upcoming Trump 2.0, geopolitical risks coupled with thin market liquidity continue to persist. The Fund's preference is for companies with leading market capitalization and good fundamentals as well as defensive and high-yielding stocks.
