Clients are advised to read the Declaration of Trust / Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The BPI PERA Government Bond Fund is suitable only for investors who:

- Are classified as moderate based on their risk profile
- Have an investment horizon of at least five (5) years.

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

Interest Rate Risk: Investors are exposed to adverse changes in the prices of domestic fixed income securities due to a rise in interest rates, which generally causes fixed income security prices to decline. Factors/ events that may lead to a rise in interest rates include adverse market conditions, issuer-specific factors / events and/or negative developments in domestic political and economic conditions.

Liquidity Risk: Possibility to experience losses due to the fund's inability to convert assets into cash immediately or in instances where conversion to cash is possible but at a highly disadvantageous price.

Related Party Risk: Risk of any actual or potential conflicts of interest in handling of related party transactions.

Credit/Default Risk: Investors are exposed to the risk of loss due to the failure of the borrower/ debt issuer to make timely interest and/ or principal payments on its deposit liabilities, loans, bonds or other debt instruments due to a deterioration in the borrower's/ issuer's financial condition or external factors and events that may affect its ability to repay financial obligations such as negative developments in domestic political and economic conditions.

In accordance with the provisions in the Declaration of Trust, the Fund employs a risk management policy based on duration. The Fund may also use financial derivatives to hedge the portfolio against market and credit risks

OUTLOOK AND STRATEGY

Market Review. April 2025 was a stable month for the Philippine local fixed income market, characterized by mixed movements in yields and strong investor demand for government securities. The market navigated through global economic uncertainties and local fiscal policies effectively. The BPI Philippine Government Bond Index returned 0.30% for the month as rates crept higher by 3 bps on average, mostly on the long end of the curve. Both domestic and international factors, including central bank policies, inflation trends, and geopolitical developments affected yield movements for the period.

The Bureau of Treasury (BTr) initially announced 4 FXTN auctions for the month. The first two were re-issuances of 5-year FXTN 7-70 and 7-year FXTN20-17, both fully awarded at average rates of 5.908% and 5.986%, respectively. The 15-year auction scheduled in the last week of April was cancelled to accommodate for the jumbo 10-year FXTN issuance. The government raised a total of PHP 300 billion of FXTN 10-73 with the coupon rate set at 6.375%.

Demand for government securities remained strong, particularly for medium-term bonds. On the other hand, short-term rates saw an increase due to position trimming to fund the settlement of new 10-year paper. Local inflation slowed further to 1.8% in March 2025, down from 2.1% in February. This easing inflation supported stable bond prices. The Bangko Sentral ng Pilipinas (BSP) eased its policy rate by 25 basis points bringing the benchmark rate to 5.50%. Moreover, the BSP reduced its risk-adjusted inflation forecast to 2.3% (from 3.5%) for 2025 and 3.3% for 2026.

Fund Performance. The Fund returned 0.70% during the month of March, outperforming its benchmark by 40 basis points.

Fund Strategy. The Fund looks to maintain its duration position as interest rates are expected to decline in the medium term. While inflation has settled within the BSP's target in the past months, upside risks are still present. The BSP has already decreased its policy rates by 75 basis points year-to-date to 5.75%. The central bank remains vigilant in monitoring inflation figures before easing rates further. Volatility may persist in the global space, and the portfolio will be actively managed to take advantage of this. Investors in a bond fund must be prepared to withstand volatility as higher investment value is typically achieved over the medium to long term.

LIST OF PROSPECTIVE INVESTMENTS

The following are among the Fund's approved investment outlets, wherein the Trustee intends to invest depending on strategy, availability, or other market-driven circumstances:
