OUTLOOK AND STRATEGY

Market Review. Global equities posted mixed results in May 2025, with U.S. markets showing modest gains while Europe and Japan outperformed. The S&P 500 edged up just 0.4% as investor sentiment remained cautious amid lingering inflation concerns and uncertainty around Federal Reserve policy. In contrast, European equities surged, driven by the European Central Bank's April rate cut and a rebound in industrial activity. Markets in Poland, Austria, and Greece led the charge, with year-to-date returns exceeding 30% in some cases.

Japan's Nikkei also delivered a solid performance, rising 7.7% in May, supported by a weaker yen and strong corporate earnings in the tech and manufacturing sectors. The divergence in performance highlighted a global rotation toward markets benefiting from monetary easing and cyclical recovery, while U.S. equities lagged due to valuation pressures and geopolitical headwinds. Overall, May underscored the growing appeal of non-U.S. markets amid shifting macroeconomic dynamics.

Fund Performance. Class A returned 6.11%, while Class P returned 5.93%.

Fund Strategy. The fund will continue to invest at least 90% of its assets in the target fund.
