OUTLOOK AND STRATEGY

Market Review. In September, local government bond yields moved in mixed directions. Short-term yields (1 year and below) declined by an average of 28 basis points, reflecting the market's response to easing inflation and monetary policy. On the other hand, longer-term yields (1 to 25 years) saw a slight increase, averaging a 1.6 basis point rise. Despite these movements, returns remained positive, with the BPI Government Bond Index gaining 0.27% and the BPI Money Market Index up 0.44% for the month.

The Bureau of the Treasury (BTr) continued its regular weekly auctions of Fixed Rate Treasury Notes (FXTNs), offering various tenors from 3 to 20 years. Most of the bonds, specifically the 3-, 5-, 7-, and 10-year FXTNs, were fully awarded at competitive yields ranging from 5.605% to 5.939%. The 20-year FXTN was only partially awarded, with an average yield of 6.421%, indicating selective investor appetite for longer durations.

Meanwhile, local inflation rose to 1.5% in August, up from 0.9% in July, driven mainly by higher food prices, particularly rice and vegetables, as well as increased transport costs due to fuel price adjustments. Despite the uptick, inflation remained within the Bangko Sentral ng Pilipinas' (BSP) target range of 2–4%, suggesting that price pressures were still manageable. The central bank is forecasting inflation will average 1.7% this year, before rising to 3.3% in 2026 and 3.4% in 2027.

Fund Performance. The Fund returned 0.21% for the month, below its benchmark by 14 basis points.

Fund Strategy. The Fund aims to maintain its duration position as interest rates are expected to decline in the medium term. Inflation has significantly eased, mainly driven by a gradual reduction in rice prices. In response, the BSP has continued to reduce its policy rate, which now stands at 4.75%. The central bank has also indicated the possibility of further rate cuts, amid economic growth concerns. Market volatility may persist due to ongoing uncertainties in the global economic landscape. Investors in a bond fund must be prepared to withstand volatility as higher investment value is typically achieved over the medium to long term.
