

Key Information Investment Disclosure Statement
March 31, 2026

A reliable long-term investment with government securities

INVESTMENT OBJECTIVE AND SUMMARY

The Fund aims to achieve investment returns that closely track the total return of the iBoxx ABF Philippines Index, before fees and expenses, by investing in a diversified portfolio of peso-denominated sovereign, quasi-sovereign, and supranational bonds.

CLIENT SUITABILITY

A client profiling process should be performed prior to participating in the Fund to guide the prospective investor if it is suited to his/her investment objective and risk tolerance before deciding to invest. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from our website.

This Fund is for investors who:

- Are at least classified as moderately aggressive based on their risk profile
- Have an investment horizon of at least five (5) years

KEY RISKS AND RISK MANAGEMENT

Interest Rate Risk: The fund invests in domestic government- issued/ guaranteed securities comprising the iBoxx ABF Philippines Index, exposing investors to the risk of loss arising from a rise in interest rates, which generally causes fixed income security prices to decline. Factors/ events that may lead to a rise interest rates include adverse market conditions, and/ or negative developments in domestic political and economic conditions.

Liquidity Risk: Investors are exposed to the risk of loss due to the Fund's inability to convert security holdings to cash immediately or in instances where conversion to cash is possible but at a highly disadvantageous price due to limited buyers/sellers in the market, low trading volumes or market disruptions, among other reasons/ factors.

Related Party Risk: Investors are exposed to actual or potential conflicts of interest in the handling of related party transactions by the Trustee, specifically, the execution of trade transactions with related counterparties.

Down-grade Risk: Investors are exposed to the risk of loss arising from adverse changes in the prices of domestic government-issued/ guaranteed securities due to a downgrade in the credit rating of the Philippines.

Index Tracking Risk: Investors are exposed to the risk of not being able to achieve a level of return that matches the index being tracked by the fund due primarily to operating and fund management expenses.

In accordance with the provisions in the Declaration of Trust, the Fund employs a risk management policy based on duration. The Fund may also use financial derivatives to hedge the portfolio against market and credit risks.

⁵ BENCHMARK INFORMATION

Name: iBoxx ABF Philippines Index

Description and Key Characteristics: The iBoxx Asia Bond Fund Index family (iBoxx ABF) is designed to reflect the performance of local currency denominated sovereign and sub sovereign debt from 8 Asian countries/territories. The index offers a broad coverage of the sovereign and sub-sovereign bond universe of China, Hong Kong, Indonesia, Korea, Malaysia, Philippines, Singapore and Thailand, whilst upholding minimum standards of investability and liquidity. The indices are an integral part of the global iBoxx index families, which provide the marketplace with accurate and objective benchmarks by which to assess the performance of bond markets and investments. The iBoxx ABF Index family is split into three major indices: Overall, Sovereigns, and Sub-sovereigns. These are further broken down into sub-indices based on markets and maturities. All iBoxx indices are priced based on multiple data inputs.

Information about the benchmark may be accessed through www.ihsmarket.com. Alternatively, participants may request information from BPI Wealth at bpiwealth@bpi.com.ph.

Investments in the said outlets were approved by the BPI Wealth's Board of Directors. Likewise, all related party transactions are conducted on an arm's length and best execution basis and within established limits.

*Related party in accordance with BPI Wealth's internal policy.

OUTLOOK AND STRATEGY

Market Review. Philippine government bond prices declined in March as yields in the market moved higher. On average, bond yields increased by about 81 basis points, with bonds maturing in 3 to 10 years seeing the largest increases.

The rise in yields was mainly driven by concerns about higher inflation following a sharp increase in global oil prices. Locally, fuel prices went up significantly during the month, with gasoline prices rising from Php53 to Php93 per liter and diesel prices from Php61 to Php119. Near the end of March, the Bangko Sentral ng Pilipinas held an unscheduled meeting and decided to keep policy interest rates unchanged, citing concerns about economic growth despite inflation risks.

Investor sentiment was further affected by the weakening of the Philippine peso against the US dollar, which moved from Php57.67 to Php60.75 during the month. As a result, foreign investors continued to reduce their holdings of Philippine government bonds, with net outflows amounting to Php81.9 billion in March.

During the month, the Bureau of the Treasury raised Php55.2 billion through its regular bond auctions, which was below its Php108 billion target. This was due to the government choosing to accept fewer bids as bond yields continued to rise.

Fund Performance. The Fund continued to track the returns and duration of the iBoxx ABF Philippines. The Fund returned -3.83% for the month, the same as the benchmark index.

Fund Strategy. The iBoxx index will see minimal changes for the month. The Fund will rebalance to reflect any changes to continue to closely track the duration of its benchmark.

LIST OF PROSPECTIVE INVESTMENTS

The following are among the Fund's approved investment outlets, wherein the Trustee intends to invest depending on strategy, availability, or other market-driven circumstances:

(a) Index securities consisting of peso-denominated debt obligations issued or guaranteed by the Philippine Government, by an agency or instrumentality of the Philippine Government, by a Philippine Government sponsored entity or quasi Philippine Government entity and peso-denominated debt obligations issued by supranational financial institution, or by an agency or instrumentality of any supranational financial institution or by an entity sponsored by any supranational financial institution, in each case as determined by the Index Licensor and which are for the time being constituent securities of the iBoxx ABF Philippines Index.

(b) Non-index securities consisting of peso-denominated securities which are issued by an issuer of any Index Security and are similar to comparable Index Securities and are likely to behave in such a manner that is consistent with the Investment Objective.

(c) Bank deposits and such other investments allowed under regulations issued by the BSP.
